(1) "Department", the department of commerce and insurance;

(2) "Director", the director of the division of professional registration; and

(3) "Division", the division of professional registration.

2. There is hereby established a "Division of Professional Registration" assigned to the department of commerce and insurance as a type III transfer, headed by a director appointed by the governor with the advice and consent of the senate. All of the general provisions, definitions and powers enumerated in section 1 of the Omnibus State Reorganization Act of 1974 and Executive Order 06-04 shall apply to this department and its divisions, agencies, and personnel.

3. The director of the division of professional registration shall promulgate rules and regulations which designate for each board or commission assigned to the division the renewal date for licenses or certificates. After the initial establishment of renewal dates, no director of the division shall promulgate a rule or regulation which would change the renewal date for licenses or certificates if such change in renewal date would occur prior to the date on which the renewal date in effect at the time such new renewal date is specified next occurs. Each board or commission shall by rule or regulation establish licensing periods of one, two, or three years. Registration fees set by a board or commission shall be effective for the entire licensing period involved, and shall not be increased during any current licensing period. Persons who are required to pay their first registration fees shall be allowed to pay the pro rata share of such fees for the remainder of the period remaining at the time the fees are

paid. Each board or commission shall provide the necessary forms for initial registration, and thereafter the director may prescribe standard forms for renewal of licenses and certificates. Each board or commission shall by rule and regulation require each applicant to provide the information which is required to keep the board's records current. Each board or commission shall have the authority to collect and analyze information required to support workforce planning and policy development. Such information shall not be publicly disclosed so as to identify a specific health care provider, as defined in section 376.1350. Each board or commission shall issue the original license or certificate.

4. The division shall provide clerical and other staff services relating to the issuance and renewal of licenses for all the professional licensing and regulating boards and commissions assigned to the division. The division shall perform the financial management and clerical functions as they each relate to issuance and renewal of licenses and certificates. "Issuance and renewal of licenses and certificates" means the ministerial function of preparing and delivering licenses or certificates, and obtaining material and information for the board or commission in connection with the renewal thereof to include verifying if the applicant has submitted all required documentation and that the documentation is legible. It does not include any discretionary authority with regard to the original review of an applicant's qualifications for licensure or certification, or the subsequent review of licensee's or certificate holder's qualifications, or any disciplinary action contemplated against the licensee or certificate holder. The division may develop and implement microfilming systems and automated or manual management information systems.

5. The director of the division shall maintain a system of accounting and budgeting, in cooperation with the director of the department, the office of administration, and the state auditor's office, to ensure proper charges are made to the various boards for services rendered to them. The general assembly shall appropriate to the division and other state agencies from each board's funds moneys sufficient to reimburse the division and other state agencies for all services rendered and all facilities and supplies furnished to that board.

6. For accounting purposes, the appropriation to the division and to the office of administration for the payment of rent for quarters provided for the division shall be made from the "Professional Registration Fees Fund", which is hereby created, and is to be used solely for the purpose defined in subsection 5 of this section. The fund shall consist of moneys deposited into it from each board's fund. Each board shall contribute a prorated amount necessary to fund the division for services rendered and rent based upon the system of accounting and budgeting established by the director of the division as provided in subsection 5 of this section. Transfers of funds to the professional registration fees fund shall be made by each board on July first of each year; provided, however, that the director of the division may establish an alternative date or dates of transfers at the request of any board. Such transfers shall be made until they equal the prorated amount for services rendered and rent by the division. The provisions of section 33.080 to the contrary notwithstanding, money in this fund shall not be transferred and placed to the credit of general revenue.

7. The director of the division shall be responsible for collecting and accounting for all moneys received by the

division or its component agencies. Any money received by a board or commission shall be promptly given, identified by type and source, to the director. The director shall keep a record by board and state accounting system classification of the amount of revenue the director receives. The director shall promptly transmit all receipts to the department of revenue for deposit in the state treasury to the credit of the appropriate fund. The director shall provide each board with all relevant financial information in a timely fashion. Each board shall cooperate with the director by providing necessary information.

8. All educational transcripts, test scores, complaints, investigatory reports, and information pertaining to any person who is an applicant or licensee of any agency assigned to the division of professional registration by statute or by the department are confidential and may not be disclosed to the public or any member of the public, except with the written consent of the person whose records are involved. The agency which possesses the records or information shall disclose the records or information if the person whose records or information is involved has consented to the disclosure. Each agency is entitled to the attorney-client privilege and work-product privilege to the same extent as any other person. Provided, however, that any board may disclose confidential information without the consent of the person involved in the course of voluntary interstate exchange of information, or in the course of any litigation concerning that person, or pursuant to a lawful request, or to other administrative or law enforcement agencies acting within the scope of their statutory authority. Information regarding identity, including names and addresses, registration, and currency of the license of the persons possessing licenses

to engage in a professional occupation and the names and addresses of applicants for such licenses is not confidential information.

9. Any deliberations conducted and votes taken in rendering a final decision after a hearing before an agency assigned to the division shall be closed to the parties and the public. Once a final decision is rendered, that decision shall be made available to the parties and the public.

10. A compelling governmental interest shall be deemed to exist for the purposes of section 536.025 for licensure fees to be reduced by emergency rule, if the projected fund balance of any agency assigned to the division of professional registration is reasonably expected to exceed an amount that would require transfer from that fund to general revenue.

11. (1) The following boards and commissions are assigned by specific type transfers to the division of professional registration: Missouri state board of accountancy, chapter 326; board of cosmetology and barber examiners, chapters 328 and 329; Missouri board for architects, professional engineers, professional land surveyors and landscape architects, chapter 327; Missouri state board of chiropractic examiners, chapter 331; state board of registration for the healing arts, chapter 334; Missouri dental board, chapter 332; state board of embalmers and funeral directors, chapter 333; state board of optometry, chapter 336; Missouri state board of nursing, chapter 335; board of pharmacy, chapter 338; state board of podiatric medicine, chapter 330; Missouri real estate appraisers commission, chapter 339; and Missouri veterinary medical board, chapter 340. members of these boards by and with the advice and consent of the senate.

(2) The boards and commissions assigned to the division shall exercise all their respective statutory duties and powers, except those clerical and other staff services involving collecting and accounting for moneys and financial management relating to the issuance and renewal of licenses, which services shall be provided by the division, within the appropriation therefor. Nothing herein shall prohibit employment of professional examining or testing services from professional associations or others as required by the boards or commissions on contract. Nothing herein shall be construed to affect the power of a board or commission to expend its funds as appropriated. However, the division shall review the expense vouchers of each board. The results of such review shall be submitted to the board reviewed and to the house and senate appropriations committees annually.

(3) Notwithstanding any other provisions of law, the director of the division shall exercise only those management functions of the boards and commissions specifically provided in the Reorganization Act of 1974, and those relating to the allocation and assignment of space, personnel other than board personnel, and equipment.

(4) "Board personnel", as used in this section or chapters 317, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, and 345, shall mean personnel whose functions and responsibilities are in areas not related to the clerical duties involving the issuance and renewal of licenses, to the collecting and accounting for moneys, or to financial management relating to issuance and renewal of licenses; specifically included are executive secretaries (or comparable positions), consultants,

inspectors, investigators, counsel, and secretarial support staff for these positions; and such other positions as are established and authorized by statute for a particular board or commission. Boards and commissions may employ legal counsel, if authorized by law, and temporary personnel if the board is unable to meet its responsibilities with the employees authorized above. Any board or commission which hires temporary employees shall annually provide the division director and the appropriation committees of the general assembly with a complete list of all persons employed in the previous year, the length of their employment, the amount of their remuneration, and a description of their responsibilities.

(5) Board personnel for each board or commission shall be employed by and serve at the pleasure of the board or commission, shall be supervised as the board or commission designates, and shall have their duties and compensation prescribed by the board or commission, within appropriations for that purpose, except that compensation for board personnel shall not exceed that established for comparable positions as determined by the board or commission pursuant to the job and pay plan of the department of commerce and insurance. Nothing herein shall be construed to permit salaries for any board personnel to be lowered except by board action.

12. All the powers, duties, and functions of the division of athletics, chapter 317, and others, are assigned by type I transfer to the division of professional registration.

13. Wherever the laws, rules, or regulations of this state make reference to the division of professional registration of the department of economic development, such

references shall be deemed to refer to the division of professional registration.

14. (1) The state board of nursing, board of pharmacy, Missouri dental board, state committee of psychologists, state board of chiropractic examiners, state board of optometry, Missouri board of occupational therapy, or state board of registration for the healing arts may individually or collectively enter into a contractual agreement with the department of health and senior services, a public institution of higher education, or a nonprofit entity for the purpose of collecting and analyzing workforce data from its licensees, registrants, or permit holders for future workforce planning and to assess the accessibility and availability of qualified health care services and practitioners in Missouri. The boards shall work collaboratively with other state governmental entities to ensure coordination and avoid duplication of efforts.

(2) The boards may expend appropriated funds necessary for operational expenses of the program formed under this subsection. Each board is authorized to accept grants to fund the collection or analysis authorized in this subsection. Any such funds shall be deposited in the respective board's fund.

(3) Data collection shall be controlled and approved by the applicable state board conducting or requesting the collection. Notwithstanding the provisions of [sections 324.010 and] section 334.001, the boards may release identifying data to the contractor to facilitate data analysis of the health care workforce including, but not limited to, geographic, demographic, and practice or professional characteristics of licensees. The state board shall not request or be authorized to collect income or other financial earnings data.

(4) Data collected under this subsection shall be deemed the property of the state board requesting the data. Data shall be maintained by the state board in accordance with chapter 610, provided that any information deemed closed or confidential under subsection 8 of this section or any other provision of state law shall not be disclosed without consent of the applicable licensee or entity or as otherwise authorized by law. Data shall only be released in an aggregate form by geography, profession or professional specialization, or population characteristic in a manner that cannot be used to identify a specific individual or entity. Data suppression standards shall be addressed and established in the contractual agreement.

(5) Contractors shall maintain the security and confidentiality of data received or collected under this subsection and shall not use, disclose, or release any data without approval of the applicable state board. The contractual agreement between the applicable state board and contractor shall establish a data release and research review policy to include legal and institutional review board, or agency-equivalent, approval.

(6) Each board may promulgate rules subject to the provisions of this subsection and chapter 536 to effectuate and implement the workforce data collection and analysis authorized by this subsection. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly under chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are

subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2016, shall be invalid and void.

324.004. 1. Any person who has at least three years of work experience in an occupation or profession in another state, the District of Columbia, or any combination of such jurisdictions, and whose work experience involved the practice of an occupation or profession for which a license is not required in the jurisdiction or jurisdictions in which the person worked but is required in this state, may submit an application for a one-time nonrenewable two-year temporary license in this state in the occupation or profession, along with proof of at least three years of work experience in the occupation or profession and a fee as set by regulation of the oversight body, to the relevant oversight body in this state. The oversight body shall make a determination of qualification within forty-five days of receiving a completed application.

2. The oversight body shall require an applicant under this section to take and pass the profession-specific examination required for licensure by those applying pursuant to the provisions of the oversight body's statutory and regulatory authority. An oversight body that administers an examination on the laws of this state as part of its licensing application requirements may require an applicant under this section to take and pass an examination specific to the laws of this state.

3. The oversight body shall not issue a one-time nonrenewable temporary license to any applicant described in subsection 1 of this section who has had any license in the relevant occupation or profession revoked by an oversight body outside of this state, who is currently under

investigation, who has a complaint pending, or who is currently under disciplinary action.

4. Applicants for the one-time nonrenewable temporary license shall be citizens of the United States and shall submit legal proof of citizenship as part of the application.

5. If an applicant is not currently residing in this state, the oversight board shall conditionally approve the application contingent upon receipt of proof of residency in this state within ninety days of receiving temporary license. If an applicant fails to provide proof within ninety days of receiving temporary licensure, the oversight board may terminate the temporary license and the applicant may reapply for a temporary license.

6. The provisions of this section shall not apply to the following:

(1) Any occupation whose oversight body has entered into a licensing compact with another state for the regulation of practice under the oversight body's jurisdiction. The provisions of this section shall not be construed to alter the authority granted by, or any requirements promulgated pursuant to, any interjurisdictional or interstate compacts adopted by this state or any reciprocity agreements with other states, and whenever possible the provisions of this section shall be interpreted so as to imply no conflict between it and any compact or any reciprocity agreement with other states;

324.035. 1. No board, commission, or committee within the division of professional registration shall utilize occupational fees, or any other fees associated with licensing requirements, or contract or partner with any outside vendor or agency for the purpose of offering continuing education classes unless the continuing education program is approved by the director of the division of professional registration and is available to all licensees of the board, commission, or committee.

2. Nothing in this section shall be construed to preclude a board, commission, or committee within the division of professional registration from utilizing occupational licensure fees for the purpose of participating in conferences, seminars, or other outreach for the purpose of communicating information to licensees with respect to changes in policy, law, or regulations.

324.218. 1. An applicant who has not previously taken or passed an examination recognized by the committee and who meets the qualifications of subsection 2 of section 324.210 may obtain without examination a nonrenewable temporary license by paying a temporary license fee and submitting to the committee an agreement-to-supervise form that is signed by a licensed dietitian who has agreed to supervise the applicant. Such temporary licensee may practice dietetics, but any such practice shall be under the supervision of a dietitian licensed in this state.

324.263. 1. The board may apply to the administrative hearing commission for an emergency suspension or restriction of a license issued under sections 324.240 to 324.275 if:

(2) There is reasonable cause for the board to believe that the public health, safety, or welfare is at imminent risk of harm from the licensee.

2. The board shall submit to the administrative hearing commission supporting affidavits and certified court records, together with a complaint alleging the facts in support of the board's request for an emergency suspension or restriction of a license, and shall supply the administrative hearing commission with the last home or business addresses on file with the board for the licensee. Within one business day of the filing of the complaint, the administrative hearing commission shall return a service packet to the board. The service packet shall include the board's complaint and any affidavits or records the board intends to rely on that have been filed with the administrative hearing commission. The service packet may contain other information in the discretion of the administrative hearing commission. Within twenty-four hours of receiving the packet, the board shall either personally serve the licensee the service packet or leave a copy of the service packet at all of the licensee's current addresses on file with the board.

3. Within five days of the board's filing of the complaint, the administrative hearing commission shall review the information submitted by the board and shall issue its findings of fact and conclusions of law. If the administrative hearing commission finds that there is reasonable cause for the board to believe that the public health, safety, or welfare is at imminent risk of harm from the licensee, the administrative hearing commission shall enter the order requested by the board. The order shall be effective upon personal service or by leaving a copy at all of the licensee's current addresses on file with the board.

4. (1) The administrative hearing commission shall hold an evidentiary hearing on the record within forty-five days of the board's filing of the complaint, or upon final adjudication of any criminal charges filed against the licensee, as appropriate, to determine if cause for discipline exists under the provisions of sections 324.240 to 324.275 and to determine whether the initial order entered by the administrative hearing commission shall continue in effect. Prior to the hearing, the licensee may file affidavits and certified court records for consideration by the administrative hearing commission. The administrative hearing commission may grant a request for a continuance but shall in any event hold the hearing within one hundred twenty days of the board's initial filing. The board shall be granted leave to amend its complaint if it is more than thirty days prior to the hearing, or within thirty days prior to the hearing upon a showing of good cause.

(2) If no cause for discipline is found following an evidentiary hearing, the administrative hearing commission shall issue findings of fact, conclusions of law, and an order terminating the administrative hearing commission's initial order imposing an emergency suspension or restriction of the license.

(3) If the administrative hearing commission finds cause for discipline following an evidentiary hearing, the administrative hearing commission shall issue findings of fact and conclusions of law and order the emergency suspension or restriction to remain in full force and effect pending a disciplinary hearing before the board. The board shall hold a hearing following the certification of the record by the administrative hearing commission and may impose discipline otherwise authorized by state law.

5. Any action under this section shall be in addition to and not in lieu of any discipline otherwise in the board's power to impose and may be brought concurrently with other actions.

6. If the administrative hearing commission does not grant an initial order imposing an emergency suspension or restriction of the license as described in subsection 3 of this section, the board shall remove all reference to such emergency suspension or restriction from its public records.
