91 (3) The report card webpage shall include a means by

100 jurisdictions, and make appropriate updates and revisions to
101 the report card to improve its usefulness based on user
102 feedback and best practices employed in school report cards.

103 3. The report card shall permit the disclosure of data

107 4. The report card shall identify each school or
108 attendance center that has been identified as a priority
109 school under sections 160.720 and 161.092. The report also
110 shall identify attendance centers that have been categorized
111 under federal law as needing improvement or requiring
112 specific school improvement strategies.

113 5. The report card shall not limit or discourage other
114 methods of public reporting and accountability by local
115 school districts, charter schools, or virtual schools.
116 Districts, charter schools, and virtual schools shall
117 provide information included in the report card to parents,
118 community members, the print and broadcast news media, and
119 legislators by December first annually or as soon thereafter
120 as the information is available to the district, charter
121 school, or virtual school, giving preference to methods that
122 incorporate the reporting into substantive official
123 communications such as student report cards. The school
124 district, charter school, or virtual school shall provide a
125 printed copy of the district-level or **[school-level]**

126 attendance center report card to any patron upon request and
127 shall make reasonable efforts to supply businesses such as,

130 parents and businesses from outside the district who may be
131 contemplating relocation have access].

132 6. For purposes of completing and distributing the
133 annual report card as prescribed in this section, a school
134 district may include the data from a charter school located
135 within such school district, provided the local board of
136 education or special administrative board for such district
137 and the charter school reach mutual agreement for the
138 inclusion of the data from the charter schools and the terms
139 of such agreement are approved by the state board of
140 education. The charter school shall not be required to be a
141 part of the local educational agency of such school district
142 and may maintain a separate local educational agency status.

143 7. School districts and charter schools shall provide
144 public reporting of information contained in subsection 2 of
145 this section on an annual basis as provided in this
146 section. The school district and charter school reports
147 shall be distributed to all media outlets serving the
148 district or charter school, and shall be made available to
149 all district and charter school patrons, and to the
150 department. Notwithstanding any provision of law to the
151 contrary, any provision of information by local control
152 school districts pursuant to the provisions of this section
153 shall not be construed as authorizing the department of
154 elementary and secondary education to use such information
155 for the purposes of classification or accreditation of local
156 control school districts. "
