Such forfeiture pursuant to this subsection shall only be allowed if such person operates a motor vehicle while the person's license to operate a motor vehicle is under such a suspension or revocation.

2. The ordinance allowing forfeitures pursuant to this section may also provide for the impoundment and forfeiture of a motor vehicle operated by any person who is classified as a prior offender or persistent offender pursuant to section 577.023 after the effective date of such ordinance, except that a judgment of forfeiture may only be rendered if there is a conviction of an intoxication-related traffic offense which causes the owner of the motor vehicle to be classified as a prior or persistent offender.

3. The ordinance allowing the forfeitures pursuant to this section may also provide for the impoundment and forfeiture of a motor vehicle operated by any person who has previously been convicted of two or more intoxication-related traffic offenses, as defined in section 577.023, and who thereafter, pursuant to a chemical test conducted in accordance with sections 577.020 to 577.041, is determined upon probable cause to have been driving a motor vehicle with a blood-alcohol concentration equal to or greater than the blood-alcohol percentage concentration specified in subsection 1 of section 302.520, or any such person who, pursuant to section 577.041, has been requested to submit to a chemical test as described pursuant to that section, and refused to submit to such test.

the motor vehicle subject to forfeiture, at the time of the action giving rise to the forfeiture proceeding, list persons as owners or co-owners of the vehicle in addition to or other than the operator, and the nonoperator owner of the motor vehicle has not previously been the operator or the owner of, a motor vehicle which has been the subject of a forfeiture proceeding authorized by this section, the motor vehicle shall be returned to the nonoperator registered owner and all costs associated with the seizure, towing, storage and impoundment of the vehicle, and the payment of all court costs and reasonable attorney fees associated with the forfeiture proceeding shall be paid by the owners or the operator of the vehicle. To be entitled to return of the vehicle all owners shall execute a written agreement with the municipality stipulating and consenting to the seizure and forfeiture of the motor vehicle in the event such motor vehicle is subsequently operated by the same operator under circumstances which would allow the municipality to seek forfeiture of such vehicle pursuant to an ordinance authorized by this section.

Nuisance action for deteriorated property (Jefferson, Platte, Franklin, and St. Louis counties, Springfield, St. Louis, Kansas City).

82.1025. 1. This section applies to a nuisance located within the boundaries of any county of the first classification with a charter form of government and a population greater than nine hundred thousand, in any county of the first classification with more than one hundred ninety-eight thousand but fewer than one hundred ninety-nine thousand two hundred inhabitants, in any county of the first classification with more than seventy-three thousand seven hundred but fewer than seventy-three thousand eight hundred inhabitants, in any county of the first classification with more than ninety-three thousand eight hundred but fewer than ninety-three thousand nine hundred inhabitants, in any home rule city with more than one hundred fifty-one thousand five hundred but fewer than one hundred fifty-one thousand six hundred inhabitants, in any city not within a county and in any city with at least three hundred fifty thousand inhabitants which is located in more than one county.

2. A parcel of property is a nuisance, if such property adversely affects the property values of a neighborhood or the property value of any property within the neighborhood because the owner of such property allows the property to be in a deteriorated condition, due to neglect or failure to reasonably maintain, violation of a county or municipal building code, standard, or ordinance, abandonment, failure to repair after a fire, flood or some other damage to the property or because the owner or resident of the property allows clutter on the property such as abandoned automobiles, appliances or similar objects. Any property owner who owns property within one thousand two hundred feet of a parcel of property which is alleged to be a nuisance may bring a nuisance action against the offending property owner for the amount of damage created by such nuisance to the value of the petitioner's property, including diminution in value of the petitioner's property, and court costs, provided that the owner of the property which is alleged to be a nuisance has received notification of the alleged nuisance and has had a reasonable opportunity, not to exceed forty-five

days, to correct the alleged nuisance. This section is not intended to abrogate, and shall not be construed as abrogating, any remedy available under the common law of private nuisance.

3. An action for injunctive relief to abate a nuisance under this section may be brought by:

(1) Anyone who owns property within one thousand two hundred feet to a property which is alleged to be a nuisance; or

(2) ** A neighborhood organization, as defined in subdivision (2) of section [82.1027](#), on behalf of any person or persons who own property within the boundaries of the neighborhood or neighborhoods described in the articles of incorporation or bylaws of the neighborhood organization and who could maintain a nuisance action under this section or under the common law of private nuisance, or on its own behalf with respect to a nuisance on property anywhere within the boundaries of the neighborhood or neighborhoods.

4. An action shall not be brought under this section until sixty days after the party who brings the action has sent written notice of intent to bring an action under this section by certified mail, return receipt requested, postage prepaid to:

(1) The tenant, if any, or to "occupant" if the identity of the tenant cannot be reasonably ascertained, at the property's address; and

(2) The property owner of record at the last known address of the property owner on file with the county or city, or, if the property owner is a corporation or other type of limited liability company, to the property owner's registered agent at the agent's address of record;

that a nuisance exists and that legal action may be taken against the owner of the property. If the notice sent by certified mail is returned unclaimed or refused, designated by the post office to be undeliverable, or signed for by a person other than the addressee, then adequate and sufficient notice may be given to the tenant, if any, and the property owner of record by sending a copy of the notice by regular mail to the address of the property owner or registered agent and posting a copy of the notice on the property where the nuisance allegedly is occurring. A sworn affidavit by the person who mailed or posted the notice describing the date and manner that notice was given shall be prima facie evidence of the giving of such notice. The notice shall specify:

(a) The act or condition that constitutes the nuisance;

(b) The date the nuisance was first discovered;

(c) The address of the property and location on the property where the act or condition that constitutes the nuisance is allegedly occurring or exists; and

(d) The relief sought in the action.

5. When a neighborhood organization files a suit under this section, an officer of the neighborhood organization or its counsel shall certify to the court:

(1) From personal knowledge, that the neighborhood organization has taken the required steps to satisfy the notice requirements under this section; and

(2) Based on reasonable inquiry, that each condition precedent to the filing of the action under this section has been met.

6. A neighborhood organization may not bring an action under this section if, at the time of filing suit, the neighborhood organization or any of its directors own real estate, or have an interest in a trust or a corporation or other limited liability company that owns real estate, in the city or county in which the nuisance is located with respect to which real property taxes are delinquent or a notice of violation of a city code or ordinance has been issued and served and is outstanding.

7. This section is not intended to abrogate, and shall not be construed as abrogating, any remedy available under the common law of private nuisance.

Geographical information system, definitions, purpose, licensing, use of information, cost, no liability for errors.

[82.1035](#). 1. As used in this section, the following terms mean:

(1) "Community", any municipality as defined in this section;

(2) "Geographical information system", a computerized, spatial coordinate mapping and relational database technology which:

(a) Captures, assembles, stores, converts, manages, analyzes, amalgamates and records, in the digital mode, all kinds and types of information and data;

(b) Transforms such information and data into intelligence and subsequently;

(c) Retrieves, presents and distributes that intelligence to a user for use in making the intelligent decisions necessary for sound management;

(3) "Municipality", any city with a population of three hundred fifty thousand or more inhabitants which is located in more than one county.

2. The development of geographical information systems has not been undertaken in any large-scale and useful way by private enterprise. The use of modern technology can enhance the planning and decision making processes of communities. The development of geographical information systems is a time consuming and expensive activity. In the interest of maintaining community governments open and accessible to the public, information gathered by communities for use in a geographical information system, unless properly made a closed record, should be available to the public. However, access to the information in a way by which a person could render the investment of the public in a geographical information system a special benefit to that person, and not to the public, should not be permitted.

3. Any community as defined in this section may create a geographical information system for the community. The scope of the geographical information system shall be determined by the governing body of the community. The method of creation, maintenance, use and distribution of the geographical information system shall be determined by the governing body of the community.

4. The information collected or assimilated by a community for use in a geographical information system shall not be withheld from the public, unless otherwise properly made a closed record of the community as provided by section [610.021](#). The information collected or assimilated by a community for use in a geographical information system need not be disclosed in a form which may be read or manipulated by computer, absent a license agreement between the community and the person requesting the information.

5. Information collected or assimilated by a community for use in a geographical information system and disclosed in any form, other than in a form which may be read or manipulated by computer, shall be provided for a reasonable fee, as established by section [610.026](#). A community maintaining a geographical information system shall make maps and other products of the system available to the public. The cost of the map or other product shall not exceed a reasonable fee representing the cost to the community of time, equipment and personnel in the production of the map or other product. A community may license the use of a geographical information system. The cost of licensing a geographical information system may reflect the:

(1) Cost to the community of time, equipment and personnel in the production of the information in a geographical information system or the production of the geographical information system;

(2) Cost to the community of the creation, purchase, or other acquisition of the information in a geographical information system or of the geographical information system; and

(3) Value of the commercial purpose, if any, for which the information in a geographical information system or a geographical information system is to be used.

6. The provisions of this section shall not hinder the daily or routine collection of data, as defined in section 569.093, from the geographical information system by real estate brokers and agents, title collectors, developers, surveyors, utility companies, banks, or mortgage companies, nor shall the provisions allow for the charging of fees for the collection of such data exceeding that allowed pursuant to section [610.026](#). The provisions of this section, however, shall allow a community maintaining a geographical information system to license and establish costs for the use of the system's computer program and computer software, as defined in section 569.093.

7. A community distributing information used in a geographical information system or distributing a geographical information system shall not be liable for any damages which may arise from any error which may exist in the information or the geographical information system.
