167.195. 1. Beginning July 1, 2008, and continuing through the
2 2010-2011 school year unless extended by act of the general assembly,

22 optometrist or physician. Such notice shall have a place for the parent
23 to acknowledge receipt along with an indication as to whether the
24 student has received a complete eye examination and the results of the
25 examination. Evidence of an examination provided by an optometrist
26 or physician within the year preceding the school eye screening shall
27 be sufficient for meeting the requirements of this section. The notice
28 completed by the parent or guardian is to be returned to the school and

29 shall be retained in the student's file and a copy shall be sent to the

56 senior services, a standardized reporting form which shall be used by
57 all school districts in carrying out the requirements of this section;

58 (c) Design and coordinate appropriate training programs for
59 school district staff who conduct the screening exams. Such training

81 of osteopathy and the results of those examinations to determine the
82 effectiveness of eye examinations versus eye screenings.

83 4. The department of health and senior services shall make a
84 reasonable accommodation for public review and inspection of the data
85 collected as part of the eye screening pilot project provided that no
86 information is revealed that could identify any individual student who
87 was screened or examined.

89 to the child's participation in the eye screening program, the child shall
90 be excused upon receipt by the appropriate school administrator of a
91 written request.

92 6. The department of health and senior services shall provide
93 staff support to the commission.
