67.145. 1. No political subdivision of this state shall prohibit any first responder from engaging in any political activity while off duty and not in uniform, being a candidate for elected or appointed public office, or holding such office unless such political activity or candidacy is otherwise prohibited by state or federal law.

2. As used in this section, "first responder" means any person trained and authorized by law or rule to render emergency medical assistance or treatment. Such persons may include, but shall not be limited to, emergency first responders, telecommunicator first responders, police officers, sheriffs, deputy sheriffs, firefighters, ambulance attendants and attendant drivers, emergency medical

technicians, mobile emergency medical technicians, emergency medical technician-paramedics, registered nurses, or physicians.

70.631. 1. Each political subdivision may, by majority vote of its governing body, elect to cover [emergency telecommunicators] telecommunicator first responders, jailors, and emergency medical service personnel as public safety personnel members of the system. The clerk or secretary of the political subdivision shall certify an election concerning the coverage of [emergency telecommunicators] telecommunicator first responders, jailors, and emergency medical service personnel as public safety personnel members of the system to the board within ten days after such vote. The date in which the political subdivision's election becomes effective shall be the first day of the calendar month specified by such governing body, the first day of the calendar month next following receipt by the board of the certification of the election, or the effective date of the political subdivision's becoming an employer, whichever is the latest date. Such election shall not be changed after the effective date. If the election is made, the coverage provisions shall be applicable to all past and future employment with the employer by present and future employees. If a political subdivision makes no election under this section, no [emergency] telecommunicator first responder, jailor, or emergency medical service personnel of the political subdivision shall be considered public safety personnel for purposes determining a minimum service retirement age as defined in section 70.600.

2. If an employer elects to cover [emergency telecommunicators] telecommunicator first responders, jailors, and emergency medical service personnel as public safety personnel members of the system, the employer's

contributions shall be correspondingly changed effective the same date as the effective date of the political subdivision's election.

3. The limitation on increases in an employer's contributions provided by subsection 6 of section 70.730 shall not apply to any contribution increase resulting from an employer making an election under the provisions of this section.

84.344. 1. Notwithstanding any provisions of this chapter to the contrary, any city not within a county may establish a municipal police force on or after July 1, 2013, according to the procedures and requirements of this section. The purpose of these procedures and requirements is to provide for an orderly and appropriate transition in the governance of the police force and provide for an equitable employment transition for commissioned and civilian personnel.

2. Upon the establishment of a municipal police force by a city under sections 84.343 to 84.346, the board of police commissioners shall convey, assign, and otherwise transfer to the city title and ownership of all indebtedness and assets, including, but not limited to, all funds and real and personal property held in the name of or controlled by the board of police commissioners created under sections 84.010 to 84.340. The board of police commissioners shall execute all documents reasonably required to accomplish such transfer of ownership and obligations.

3. If the city establishes a municipal police force and completes the transfer described in subsection 2 of this section, the city shall provide the necessary funds for the maintenance of the municipal police force.

4. Before a city not within a county may establish a municipal police force under this section, the city shall

adopt an ordinance accepting responsibility, ownership, and liability as successor-in-interest for contractual obligations, indebtedness, and other lawful obligations of the board of police commissioners subject to the provisions of subsection 2 of section 84.345.

5. A city not within a county that establishes a municipal police force shall initially employ, without a reduction in rank, salary, or benefits, all commissioned and civilian personnel of the board of police commissioners created under sections 84.010 to 84.340 that were employed by the board immediately prior to the date the municipal police force was established. Such commissioned personnel who previously were employed by the board may only be involuntarily terminated by the city not within a county for cause. The city shall also recognize all accrued years of service that such commissioned and civilian personnel had with the board of police commissioners. Such personnel shall be entitled to the same holidays, vacation, and sick leave they were entitled to as employees of the board of police commissioners.

6. (1) Commissioned and civilian personnel of a municipal police force established under this section who are hired prior to September 1, ~~2023~~ 2028, shall not be subject to a residency requirement of retaining a primary residence in a city not within a county but may be required to maintain a primary residence located within a one-hour response time.

(2) Commissioned and civilian personnel of a municipal police force established under this section who are hired after August 31, ~~2023~~ 2028, may be subject to a residency rule no more restrictive than a requirement of retaining a primary residence in a city not within a county for a total of seven years and of then allowing the personnel to

maintain a primary residence outside the city not within a county so long as the primary residence is located within a one-hour response time.

7. The commissioned and civilian personnel who retire from service with the board of police commissioners before the establishment of a municipal police force under subsection 1 of this section shall continue to be entitled to the same pension benefits provided under chapter 86 and the same benefits set forth in subsection 5 of this section.

8. If the city not within a county elects to establish a municipal police force under this section, the city shall establish a separate division for the operation of its municipal police force. The civil service commission of the city may adopt rules and regulations appropriate for the unique operation of a police department. Such rules and regulations shall reserve exclusive authority over the disciplinary process and procedures affecting commissioned officers to the civil service commission; however, until such time as the city adopts such rules and regulations, the commissioned personnel shall continue to be governed by the board of police commissioner's rules and regulations in effect immediately prior to the establishment of the municipal police force, with the police chief acting in place of the board of police commissioners for purposes of applying the rules and regulations. Unless otherwise provided for, existing civil service commission rules and regulations governing the appeal of disciplinary decisions to the civil service commission shall apply to all commissioned and civilian personnel. The civil service commission's rules and regulations shall provide that records prepared for disciplinary purposes shall be confidential, closed records available solely to the civil service commission and those who possess authority to

conduct investigations regarding disciplinary matters pursuant to the civil service commission's rules and regulations. A hearing officer shall be appointed by the civil service commission to hear any such appeals that involve discipline resulting in a suspension of greater than fifteen days, demotion, or termination, but the civil service commission shall make the final findings of fact, conclusions of law, and decision which shall be subject to any right of appeal under chapter 536.

9. A city not within a county that establishes and maintains a municipal police force under this section:

(1) Shall provide or contract for life insurance coverage and for insurance benefits providing health, medical, and disability coverage for commissioned and civilian personnel of the municipal police force to the same extent as was provided by the board of police commissioners under section 84.160;

(2) Shall provide or contract for medical and life insurance coverage for any commissioned or civilian personnel who retired from service with the board of police commissioners or who were employed by the board of police commissioners and retire from the municipal police force of a city not within a county to the same extent such medical and life insurance coverage was provided by the board of police commissioners under section 84.160;

(3) Shall make available medical and life insurance coverage for purchase to the spouses or dependents of commissioned and civilian personnel who retire from service with the board of police commissioners or the municipal police force and deceased commissioned and civilian personnel who receive pension benefits under sections 86.200 to 86.366 at the rate that such dependent's or spouse's

coverage would cost under the appropriate plan if the deceased were living; and

(4) May pay an additional shift differential compensation to commissioned and civilian personnel for evening and night tours of duty in an amount not to exceed ten percent of the officer's base hourly rate.

10. A city not within a county that establishes a municipal police force under sections 84.343 to 84.346 shall establish a transition committee of five members for the purpose of: coordinating and implementing the transition of authority, operations, assets, and obligations from the board of police commissioners to the city; winding down the affairs of the board; making nonbinding recommendations for the transition of the police force from the board to the city; and other related duties, if any, established by executive order of the city's mayor. Once the ordinance referenced in this section is enacted, the city shall provide written notice to the board of police commissioners and the governor of the state of Missouri. Within thirty days of such notice, the mayor shall appoint three members to the committee, two of whom shall be members of a statewide law enforcement association that represents at least five thousand law enforcement officers. The remaining members of the committee shall include the police chief of the municipal police force and a person who currently or previously served as a commissioner on the board of police commissioners, who shall be appointed to the committee by the mayor of such city.

84.480. The board of police commissioners shall appoint a chief of police who shall be the chief police administrative and law enforcement officer of such cities. The chief of police shall be chosen by the board solely on the basis of his or her executive and administrative

qualifications and his or her demonstrated knowledge of police science and administration with special reference to his or her actual experience in law enforcement leadership and the provisions of section 84.420. At the time of the appointment, the chief shall [not be more than sixty years of age, shall] have had at least five years' executive experience in a governmental police agency and shall be certified by a surgeon or physician to be in a good physical condition, and shall be a citizen of the United States and shall either be or become a citizen of the state of Missouri and resident of the city in which he or she is appointed as chief of police. In order to secure and retain the highest type of police leadership within the departments of such cities, the [chief shall receive a salary of not less than eighty thousand two hundred eleven dollars, nor more than one hundred eighty-nine thousand seven hundred twenty-six dollars per annum] board shall establish a range for the salary of the chief by resolution.

84.510. 1. For the purpose of operation of the police department herein created, the chief of police, with the approval of the board, shall appoint such number of police department employees, including police officers and civilian employees as the chief of police from time to time deems necessary.

2. The base annual compensation of police officers shall be as follows for the several ranks:

(1) Lieutenant colonels, not to exceed five in number, at not less than seventy-one thousand nine hundred sixty-nine dollars[, nor more than one hundred forty-six thousand one hundred twenty-four dollars per annum each];

(2) Majors at not less than sixty-four thousand six hundred seventy-one dollars[, nor more than one hundred

thirty-three thousand three hundred twenty dollars per annum each];

(3) Captains at not less than fifty-nine thousand five hundred thirty-nine dollars[, nor more than one hundred twenty-one thousand six hundred eight dollars per annum each];

(4) Sergeants at not less than forty-eight thousand six hundred fifty-nine dollars[, nor more than one hundred six thousand five hundred sixty dollars per annum each];

(7) Detectives, investigators, and police officers at not less than twenty-six thousand six hundred forty-three dollars[, nor more than eighty-seven thousand six hundred thirty-six dollars per annum each].

3. The board of police commissioners has the authority by resolution to effect a comprehensive pay schedule program to provide for step increases with separate pay rates within each rank, [in] using the above-specified salary minimums as a base for such ranges from police officers through chief of police.

4. Officers assigned to wear civilian clothes in the performance of their regular duties may receive an additional one hundred fifty dollars per month clothing allowance. Uniformed officers may receive seventy-five dollars per month uniform maintenance allowance.

5. The chief of police, subject to the approval of the board, shall establish the total regular working hours for all police department employees, and the board has the power, upon recommendation of the chief, to pay additional compensation for all hours of service rendered in excess of the established regular working period, but the rate of overtime compensation shall not exceed one and one-half times the regular hourly rate of pay to which each member shall normally be entitled. No credit shall be given nor deductions made from payments for overtime for the purpose of retirement benefits.

6. The board of police commissioners, by majority affirmative vote, including the mayor, has the authority by resolution to authorize incentive pay in addition to the base compensation as provided for in subsection 2 of this section, to be paid police officers of any rank who they determine are assigned duties which require an extraordinary degree of skill, technical knowledge and ability, or which are highly demanding or unusual. No credit shall be given nor deductions made from these payments for the purpose of retirement benefits.

7. The board of police commissioners may effect programs to provide additional compensation for successful completion of academic work at an accredited college or university. No credit shall be given nor deductions made from these payments for the purpose of retirement benefits.

8. The additional pay increments provided in subsections 6 and 7 of this section shall not be considered a part of the base compensation of police officers of any rank and shall not exceed ten percent of what the officer would otherwise be entitled to pursuant to subsections 2 and 3 of this section.

9. Not more than twenty-five percent of the officers in any rank who are receiving the maximum rate of pay authorized by subsections 2 and 3 of this section may receive the additional pay increments authorized by subsections 6 and 7 of this section at any given time. However, any officer receiving a pay increment provided pursuant to the provisions of subsections 6 and 7 of this section shall not be deprived of such pay increment as a result of the limitations of this subsection.

105.726. 1. Nothing in sections 105.711 to 105.726 shall be construed to broaden the liability of the state of Missouri beyond the provisions of sections 537.600 to 537.610, nor to abolish or waive any defense at law which might otherwise be available to any agency, officer, or employee of the state of Missouri. Sections 105.711 to 105.726 do not waive the sovereign immunity of the state of Missouri.

2. The creation of the state legal expense fund and the payment therefrom of such amounts as may be necessary for the benefit of any person covered thereby are deemed necessary and proper public purposes for which funds of this state may be expended.

3. Moneys in the state legal expense fund shall not be available for the payment of any claim or any amount required by any final judgment rendered by a court of competent jurisdiction against a board of police commissioners established under chapter 84, including the commissioners, any police officer, notwithstanding sections 84.330 and 84.710, or other provisions of law, other employees, agents, representative, or any other individual or entity acting or purporting to act on its or their behalf. Such was the intent of the general assembly in the original enactment of sections 105.711 to 105.726, and it is

made express by this section in light of the decision in Wayman Smith, III, et al. v. State of Missouri, 152 S.W.3d 275. Except that the commissioner of administration shall reimburse from the legal expense fund the board of police commissioners established under [section 84.350, and any successor-in-interest established pursuant to section 84.344,] chapter 84 for liability claims otherwise eligible for payment under section 105.711 paid by such [board] boards on a twenty-one equal share basis per claim up to a maximum of one million dollars per fiscal year.

4. [Subject to the provisions of subsection 2 of section 84.345,] If the representation of the attorney general is requested by a board of police commissioners [or its successor-in-interest established pursuant to section 84.344], the attorney general shall represent, investigate, defend, negotiate, or compromise all claims under sections 105.711 to 105.726 for the board of police commissioners, its successor-in-interest pursuant to section 84.344, any police officer, other employees, agents, representatives, or any other individual or entity acting or purporting to act on their behalf. The attorney general may establish procedures by rules promulgated under chapter 536 under which claims must be referred for the attorney general's representation. The attorney general and the officials of the city which the police board represents [or represented] shall meet and negotiate reasonable expenses or charges that will fairly compensate the attorney general and the office of administration for the cost of the representation of the claims under this section.

5. Claims tendered to the attorney general promptly after the claim was asserted as required by section 105.716 and prior to August 28, 2005, may be investigated, defended, negotiated, or compromised by the attorney general and full

payments may be made from the state legal expense fund on behalf of the entities and individuals described in this section as a result of the holding in *Wayman Smith, III, et al. v. State of Missouri*, 152 S.W.3d 275.

170.310. 1. For school year 2017-18 and each school year thereafter, upon graduation from high school, pupils in public schools and charter schools shall have received thirty minutes of cardiopulmonary resuscitation instruction and training in the proper performance of the Heimlich maneuver or other first aid for choking given any time during a pupil's four years of high school.

2. Beginning in school year 2017-18, any public school or charter school serving grades nine through twelve shall provide enrolled students instruction in cardiopulmonary resuscitation. Students with disabilities may participate to the extent appropriate as determined by the provisions of the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act. Instruction shall be included in the district's existing health or physical education curriculum. Instruction shall be based on a program established by the American Heart Association or the American Red Cross, or through a nationally recognized program based on the most current national evidence-based emergency cardiovascular care guidelines, and psychomotor skills development shall be incorporated into the instruction. For purposes of this section, "psychomotor skills" means the use of hands-on practicing and skills testing to support cognitive learning.

3. The teacher of the cardiopulmonary resuscitation course or unit shall not be required to be a certified trainer of cardiopulmonary resuscitation if the instruction is not designed to result in certification of students. Instruction that is designed to result in certification

being earned shall be required to be taught by an authorized cardiopulmonary instructor. Schools may develop agreements with any local chapter of a voluntary organization of first responders to provide the required hands-on practice and skills testing. For purposes of this subsection, "first responders" shall include telecommunicator first responders as defined in section 650.320.

4. The department of elementary and secondary education may promulgate rules to implement this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2012, shall be invalid and void.

190.091. 1. As used in this section, the following terms mean:

(1) "Bioterrorism", the intentional use of any microorganism, virus, infectious substance, or biological product that may be engineered as a result of biotechnology or any naturally occurring or bioengineered component of any microorganism, virus, infectious substance, or biological product to cause death, disease, or other biological malfunction in a human, an animal, a plant, or any other living organism to influence the conduct of government or to intimidate or coerce a civilian population;

(2) "Department", the Missouri department of health and senior services;

(3) "Director", the director of the department of health and senior services;

(6) "Missouri state highway patrol telecommunicator", any authorized Missouri state highway patrol communications division personnel whose primary responsibility includes directly responding to emergency communications and who meet the training requirements pursuant to section 650.340.

2. The department shall offer a vaccination program for first responders and Missouri state highway patrol telecommunicators who may be exposed to infectious diseases when deployed to disaster locations as a result of a bioterrorism event or a suspected bioterrorism event. The vaccinations shall include, but are not limited to, smallpox, anthrax, and other vaccinations when recommended by the federal Centers for Disease Control and Prevention's Advisory Committee on Immunization Practices.

3. Participation in the vaccination program shall be voluntary by the first responders and Missouri state highway patrol telecommunicators, except for first responders or Missouri state highway patrol telecommunicators who, as determined by their employer, cannot safely perform emergency responsibilities when responding to a bioterrorism event or suspected bioterrorism event without being vaccinated. The recommendations of the Centers for Disease Control and Prevention's Advisory Committee on Immunization

Practices shall be followed when providing appropriate screening for contraindications to vaccination for first responders and Missouri state highway patrol telecommunicators. A first responder and Missouri state highway patrol telecommunicator shall be exempt from vaccinations when a written statement from a licensed physician is presented to their employer indicating that a vaccine is medically contraindicated for such person.

4. If a shortage of the vaccines referred to in subsection 2 of this section exists following a bioterrorism event or suspected bioterrorism event, the director, in consultation with the governor and the federal Centers for Disease Control and Prevention, shall give priority for such vaccinations to persons exposed to the disease and to first responders or Missouri state highway patrol telecommunicators who are deployed to the disaster location.

5. The department shall notify first responders and Missouri state highway patrol telecommunicators concerning the availability of the vaccination program described in subsection 2 of this section and shall provide education to such first responders, [and] their employers, and Missouri state highway patrol telecommunicators concerning the vaccinations offered and the associated diseases.

6. The department may contract for the administration of the vaccination program described in subsection 2 of this section with health care providers, including but not limited to local public health agencies, hospitals, federally qualified health centers, and physicians.

7. The provisions of this section shall become effective upon receipt of federal funding or federal grants which designate that the funding is required to implement vaccinations for first responders and Missouri state highway patrol telecommunicators in accordance with the

recommendations of the federal Centers for Disease Control and Prevention's Advisory Committee on Immunization Practices. Upon receipt of such funding, the department shall make available the vaccines to first responders and Missouri state highway patrol telecommunicators as provided in this section.

285.040. 1. As used in this section, "public safety employee" shall mean a person trained or authorized by law or rule to render emergency medical assistance or treatment, including, but not limited to, firefighters, ambulance attendants and attendant drivers, emergency medical technicians, emergency medical technician paramedics, dispatchers, registered nurses, physicians, and sheriffs and deputy sheriffs.

2. No public safety employee of a city not within a county who is hired prior to September 1, ~~2023~~ 2028, shall be subject to a residency requirement of retaining a primary residence in a city not within a county but may be required to maintain a primary residence located within a one-hour response time.

3. Public safety employees of a city not within a county who are hired after August 31, ~~2023~~ 2028, may be subject to a residency rule no more restrictive than a requirement of retaining a primary residence in a city not within a county for a total of seven years and of then allowing the public safety employee to maintain a primary residence outside the city not within a county so long as the primary residence is located within a one-hour response time.

287.067. 1. In this chapter the term "occupational disease" is hereby defined to mean, unless a different meaning is clearly indicated by the context, an identifiable disease arising with or without human fault out of and in

the course of the employment. Ordinary diseases of life to which the general public is exposed outside of the employment shall not be compensable, except where the diseases follow as an incident of an occupational disease as defined in this section. The disease need not to have been foreseen or expected but after its contraction it must appear to have had its origin in a risk connected with the employment and to have flowed from that source as a rational consequence.

2. An injury or death by occupational disease is compensable only if the occupational exposure was the prevailing factor in causing both the resulting medical condition and disability. The "prevailing factor" is defined to be the primary factor, in relation to any other factor, causing both the resulting medical condition and disability. Ordinary, gradual deterioration, or progressive degeneration of the body caused by aging or by the normal activities of day-to-day living shall not be compensable.

3. An injury due to repetitive motion is recognized as an occupational disease for purposes of this chapter. An occupational disease due to repetitive motion is compensable only if the occupational exposure was the prevailing factor in causing both the resulting medical condition and disability. The "prevailing factor" is defined to be the primary factor, in relation to any other factor, causing both the resulting medical condition and disability. Ordinary, gradual deterioration, or progressive degeneration of the body caused by aging or by the normal activities of day-to-day living shall not be compensable.

4. "Loss of hearing due to industrial noise" is recognized as an occupational disease for purposes of this chapter and is hereby defined to be a loss of hearing in one or both ears due to prolonged exposure to harmful noise in

employment. "Harmful noise" means sound capable of producing occupational deafness.

5. "Radiation disability" is recognized as an occupational disease for purposes of this chapter and is hereby defined to be that disability due to radioactive properties or substances or to Roentgen rays (X-rays) or exposure to ionizing radiation caused by any process involving the use of or direct contact with radium or radioactive properties or substances or the use of or direct exposure to Roentgen rays (X-rays) or ionizing radiation.

6. Disease of the lungs or respiratory tract, hypotension, hypertension, or disease of the heart or cardiovascular system, including carcinoma, may be recognized as occupational diseases for the purposes of this chapter and are defined to be disability due to exposure to smoke, gases, carcinogens, inadequate oxygen, of paid firefighters of a paid fire department or paid police officers of a paid police department certified under chapter 590 if a direct causal relationship is established, or psychological stress of firefighters of a paid fire department or paid peace officers of a police department who are certified under chapter 590 if a direct causal relationship is established.

7. Any employee who is exposed to and contracts any contagious or communicable disease arising out of and in the course of his or her employment shall be eligible for benefits under this chapter as an occupational disease.

8. With regard to occupational disease due to repetitive motion, if the exposure to the repetitive motion which is found to be the cause of the injury is for a period of less than three months and the evidence demonstrates that the exposure to the repetitive motion with the immediate prior employer was the prevailing factor in causing the

injury, the prior employer shall be liable for such occupational disease.

9. (1) (a) Posttraumatic stress disorder (PTSD), as described in the Diagnostic and Statistical Manual of Mental Health Disorders, Fifth Edition, published by the American Psychiatric Association, (DSM-5) is recognized as a compensable occupational disease for purposes of this chapter when diagnosed in a first responder. As used in this section, "first responder" means emergency first responders, law enforcement officers, sheriffs, deputy sheriffs, firefighters, ambulance attendants and attendant drivers, and emergency medical technician-paramedics.

(b) Benefits payable to a first responder pursuant to this section shall not require a physical injury to the first responder, and are not subject to any preexisting PTSD.

(2) The time for notice of injury or death in cases of compensable PTSD pursuant to this section is measured from exposure to one of the qualifying stressors listed in the DSM-5 criteria, or the diagnosis of the disorder, whichever is later. Any claim for compensation for such injury shall be properly noticed to the division within fifty-two weeks after the qualifying exposure, or the diagnosis of the disorder, whichever is later.

590.192. 1. There is hereby established the "Critical Incident Stress Management Program" within the department of public safety. The program shall provide services for peace officers and firefighters to assist in coping with stress and potential psychological trauma resulting from a response to a critical incident or emotionally difficult event. Such services may include consultation, risk assessment, education, intervention, and other crisis intervention services provided by the department to peace officers and firefighters affected by a critical incident. For purposes

of this section, a "critical incident" shall mean any event outside the usual realm of human experience that is markedly distressing or evokes reactions of intense fear, helplessness, or horror and involves the perceived threat to a person's physical integrity or the physical integrity of someone else.

2. All peace officers and firefighters shall be required to meet with a program service provider once every three to five years for a mental health check-in. The program service provider shall send a notification to the peace officer's commanding officer or firefighter's fire protection district director that he or she completed such check-in.

3. Any information disclosed by a peace officer or firefighter shall be privileged and shall not be used as evidence in criminal, administrative, or civil proceedings against the peace officer or firefighter unless:

(1) A program representative reasonably believes the disclosure is necessary to prevent harm to a person who received services or to prevent harm to another person;

(2) The person who received the services provides written consent to the disclosure; or

(3) The person receiving services discloses information that is required to be reported under mandatory reporting laws.

4. (1) There is hereby created in the state treasury the "988 Public Safety Fund", which shall consist of moneys appropriated by the general assembly. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and moneys in the fund shall be used solely by the department of public safety for the purposes of providing services for

peace officers and firefighters to assist in coping with stress and potential psychological trauma resulting from a response to a critical incident or emotionally difficult event pursuant to subsection 1 of this section. Such services may include consultation, risk assessment, education, intervention, and other crisis intervention services provided by the department to peace officers or firefighters affected by a critical incident. The director of public safety may prescribe rules and regulations necessary to carry out the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2021, shall be invalid and void.

(2) Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund.
