FISCAL ANALYSIS

ASSUMPTION

Officials with the **Department of Revenue and Department of Transportation** assume this legislation would have no fiscal impact on their agencies.

Officials with the **Kansas City Area Transportation Authority (KCATA)** assume this proposal would remove the sunset date of December 31, 2005 on the one-half cent sales tax that supports their operations. KCATA officials state that the tax currently generates approximately \$30 million per year in revenues, which increases at a rate of approximately 1% per year.

Using a 1% annual growth rate, **Oversight** assumes sales tax revenues resulting from this tax to be approximately \$30.3 million in FY06, \$30.6 million in FY07, and \$30.9 million in FY08. **Oversight** further assumes that the state levies a 1% collection fee on local sales taxes it collects. Thus, collection fees totaling approximately \$151,500 in FY06 (for six months), \$306,030 in FY07, and \$309,090 in FY08 would be credited to General Revenue as a result of this proposal.

This proposal would increase Total State Revenues.

FISCAL IMPACT - Small Business

Small businesses would be expected to be fiscally impacted to the extent that they pay local sales tax on taxable items. The extension of the Kansas City transportation sales tax would cause small businesses to continue to pay the local rate for such taxable items.

DESCRIPTION

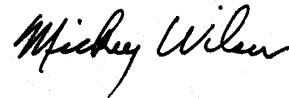

This act repeals the expiration of the Kansas City area mass transportation sales tax.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
