FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Elementary and Secondary Education** assume this proposal will not have a fiscal impact on their agency or on the school district affected.

Officials from the **Saint Louis Public School District** state this proposal will have no fiscal impact on their district.

Oversight assumes that although the proposal leaves the option of appointing of a treasurer, commissioner of school buildings, associate and assistant superintendents, and a director of personnel up to the discretion of the superintendent, with approval by the board, **Oversight** assumes those positions would be filled due to the size of the district.

DESCRIPTION

This proposal involves the superintendent and teachers of the St. Louis Public school system.

The proposed legislation alters the current statutory requirement that the superintendent's supervision of the school system be subject to the control of the board and instead asserts that the superintendent's supervision of the school system be subject to policies established by the board.

Current law mandates that the superintendent hire a treasurer, a commissioner of school buildings, as many associate and assistant superintendents as the superintendent deems necessary, as well as director of personnel. This act alters the aforementioned mandate so that the superintendent has the option as to whether to fill such positions.

Current law requires that only the district's teaching appointments and promotions be based on merit. Under the provisions of this act, all of the district's employee appointments and promotions will be merit-based.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
