FISCAL ANALYSIS

ASSUMPTION

Officials with the **Department of Natural Resources** assume this proposal would have no significant impact on their agency.

Officials with the **Department of Revenue (DOR)** assume that this proposal expands the sales tax exemptions for utility expenses in material recovery plants. DOR assumes this proposal would have no administrative impact on its operations, but also assumes this legislation would result in a small loss in sales tax revenues.

Officials with the **Office of Administration – Division of Budget and Planning (BAP)** assume this proposal exempts from sales and use tax qualifying material recovery manufacturing processes excluding motor vehicles, and that it would have no fiscal impact on their agency. BAP assume an unknown loss of General Revenue as a result of this proposal.

Oversight assumes this proposal would reduced state and local sales tax revenues by an unknown amount.

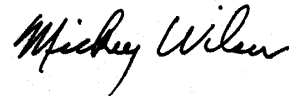

DESCRIPTION

This legislation modifies the sales and use tax exemption definition of a material recovery processing plant.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
