**FISCAL ANALYSIS**

**ASSUMPTION**

Officials of the **City of St. Louis - Budget Division** stated that the proposed legislation would increase the current Police Officer salary pay matrix by \$1,350 across-the-board. An estimate for the cost of this increase can be derived from multiplying the 1,400 budgeted uniformed officers by \$1,350 and adding the cost of the matrix step increases. The impact of the anniversary driven matrix step increases in any given year is estimated at 62% of the full year cost in the year in which it occurs, assuming a normal distribution of officer anniversary dates

Cost estimates are summarized below:

Uniformed Police	
Base Salary Increase	\$1.9 mil.
Matrix Step Increase	<u>0.6 mil.</u>
<b>Total Annual increase</b>	<b>\$2.5 mil.</b>

ASSUMPTION (continued)

Officials of the **St. Louis Metropolitan Police Department** estimate annual cost at \$2,453,000.

Officials of the **City of St. Louis - Budget Division** stated that the “\$1350 pay increase for Fireman has already been passed by the Board of Alderman. The City of St. Louis has pay parity which automatically authorizes Police to receive the same pay increase, but only if passed by the state. By passing this bill, Pay raises will be authorized with no additional say so on our end.”

Officials stated that the Firefighters will receive the \$1,350 raise regardless of this bill. The Firefighters already received the increase in last years pay plan.
