FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Elementary and Secondary Education (DESE)** was not able to estimate the fiscal impact of this proposal as written. DESE; however, assumes the cost to the state would be minimal due to the small number of districts/teachers that would be involved.

Officials from the **Nixa, Marshfield, and Strafford School Districts** indicated there would be no fiscal impact to their districts as a result of this proposed legislation.

Oversight assumes that since only thirteen districts are involved and not all of them may choose to re-enter the career ladder program, the financial impact would be less than \$100,000.

Officials from the **Ava School District** did not respond to our request for fiscal note.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

Current law states that when a school district interrupts its career ladder program and in a subsequent school year renews its participation, the district must reenter the program on the cost-sharing basis specified in statute.

This proposal would allow any school district that participated in the career ladder program prior to the 2001-2002 school year but ceased its participation at any time from July 1, 2001, to July 1, 2005, to resume participation in the program at the same matching level for which the district

DESCRIPTION (continued)

qualified during its last year of participation, provided that the district reenters the program no later than July 1, 2006.

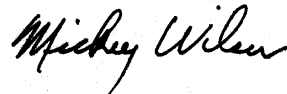

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
