DESCRIPTION

This act pertains to wholesale water and sewer authorities.

The act allows for wholesale water and sewer authorities to be created; to do so, two or more providers would petition the Circuit Court in which the proposed authority is to be located. The details required in the petition are laid out in the act. Public notice is required once the court has the petition, and the court has, within its discretion, the permission to call a public hearing on the formation of such a district.

The act allows for an authority, once it has been formed, to add to the membership; the requirements for such an addition are also laid out in the act.

Board membership for the authority is detailed in the act as well as the powers they possess. Proceedings for the dissolution of such an authority is provided for in the act, and no authority shall be dissolved until after all of its debts have been paid.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
