| <b>Local Government</b>             | \$0     | (\$12,000,000) | (\$18,000,000) |  |

### **FISCAL ANALYSIS**

#### **ASSUMPTION**

According to officials from the **Department of Elementary and Secondary Education (DESE),** this proposal shifts responsibility away from the state and toward local school districts regarding payment of special education services. DESE estimates an annual savings to state funds totaling \$18 million and an offsetting annual cost to school districts totaling \$18 million. The impact will occur over a three year phase-in period with zero cost in FY 06, \$12 million in FY 07, and \$18 million in FY 08.

Officials from the **Special School District of Saint Louis County** did not respond to a request for fiscal note response.

#### FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

#### **DESCRIPTION**

Currently, the definition of "severely handicapped children" includes handicapped children under the age of 21 who, because of the extent of the handicapping condition, are unable to benefit from or meaningfully participate in programs in the public schools for handicapped children. This proposed legislation alters the aforementioned definition by striking the current provisions and instead inserts language so the definition only includes those children who meet the eligibility criteria for severely handicapped children as identified in state regulations that implement the Individuals with Disabilities Education Act.

The proposal requires the Department of Elementary and Secondary Education to reimburse school districts for the educational costs of high-need children with an individualized education program exceeding three times the current expenditure per average daily attendance.

Further, the proposal deletes two sections of current law that require the State Board of

## **DESCRIPTION** (continued)

Education to provide special education services for all severely handicapped children residing in school districts if such school districts are unable to provide appropriate programs of special instruction for severely handicapped children.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
