FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Economic Development** (DED) assume there would be no initial fiscal impact to their organization from this proposal, but that some costs could be incurred to implement any resulting recommendations.

Oversight assumes that any costs to implement new programs related to this proposal would be requested through the normal budget process.

Officials from the **Department of Higher Education** (DHE) assume the proposal would require one board member in addition to the department director, to travel to Jefferson City for meetings at an estimated travel cost of \$410 per year. In addition, DHE estimated that one-half FTE Research Associate would be needed for policy research and implementation for the goals required of this proposal. The DHE estimate of salary, expense, and equipment totaled \$28,756 for FY 2007, \$34,112 for FY 2008, and \$34,999 for FY 2009.

Oversight assumes the travel costs would be minimal and could be assumed with existing resources, and that additional staff would not be needed. If additional staff is required to implement new programs related to this proposal, that staff and any related costs would be requested through the normal budget process.

ASSUMPTION (continued)

Officials from the **Department of Elementary and Secondary Education** assume the cost to implement the proposal would include travel reimbursement amounting to less than \$100,000 per year.

Oversight assumes the travel costs could be assumed with existing resources.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
