### **FISCAL ANALYSIS**

#### **ASSUMPTION**

Officials from the **State Tax Commission** assume the proposal would not fiscally impact their agency and would have an unknown local fiscal impact.

Officials from the **Department of Revenue (DOR)** state the proposal would not fiscally impact their agency.

DOR assumes the loss due to the number of new credits to be very minimal, possibly even zero.

Officials from the **Office of Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$1,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

ASSUMPTION (continued)

In response to a previous version of this proposal, officials from the **Cole County Assessor's Office** stated the proposal does not appear to have any effect on the already existing duties concerning this legislation.

Officials from the counties of **St. Charles, Clay and Greene** did not respond to our request for fiscal impact.

**Oversight** assumes the number of new applications (and corresponding fiscal impact) resulting from the proposal would be small, therefore Oversight assumes the proposal will not fiscally impact state government.
