FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of the Attorney General**, the **Office of the State Auditor**, the **Missouri Ethics Commission**, the **Department of Public Safety**, **Missouri Army Reserve National Guard** and **Division of Water Safety**, the **Department of Health and Senior Services**, **Certificate of Need Program**, and the **Missouri Gaming Commission** assume this proposal would have no fiscal impact on their organizations.

Officials from the **Office of Prosecution Services** assume the impact of this proposal would be according to the rate outlined in the legislation.

Officials from the **Office of State Courts Administrator** assume this proposal would have a cost to their office of \$3,011,919 based on FY 2006 payroll expenditures and a 2.25% inflation rate.

Officials from the **Missouri Comprehensive Health Care Plan** assume this proposal would have a cost to their organization of \$45,569 to \$136,708 based on an inflation rate ranging from 1.5% to 4.5%.

ASSUMPTION (continued)

Officials from the **Department of Public Safety, Missouri Veterans Commission**, assume this proposal would have a significant cost to their organization. The FY 2006 estimated additional cost would be:

Fund	3% increase	5% increase
General Revenue	\$323,031	\$538,384
Home Fund	\$913,318	\$1,522,197
Veterans Commission Capital Improvement Trust	\$26,635	\$44,391
Total	\$1,262,984	\$2,104,972

Officials from the **Department of Insurance (INS)** assume this proposal would automatically adjust certain state employees' compensation on July first of each year. INS assumes this proposal would tie annual employee pay increases to increases in the Consumer Price Index as determined by the U.S. Department of Labor, Bureau of Labor Statistics, for the Midwest Region of the United States which contains the State of Missouri. Budgeted Personnel Service appropriations for FY 2006 are \$4.9 million from the Insurance Dedicated Fund and \$5.2 million from the Insurance Examiners Fund. For every one percent increase in the Consumer Price Index, INS would incur the following costs: \$49,000 thousand in Dedicated Funding and \$52,000 in Exam Funding for a total of \$101,000 dollars/per one percent increase.

Officials from the **Office of State Public Defenders** assume this proposal would have a cost to their office of \$1,324,465 for FY 2007, \$1,377,443 for FY 2008, and \$1,432,540 based on a 4% annual increase in the Consumer Price Index.

Officials from the **Department of Economic Development, Public Service Commission (PSC)** assume this proposal would have a cost to their organization. Using a 2.9% inflation rate, the annual impact for the PSC Fund would be \$273,132 and \$8,973 for the Manufactured Housing Fund.

ASSUMPTION (continued)

Officials from the **Department of Agriculture** assume this proposal would require increased appropriations for annual state employee increases.

ASSUMPTION (continued)

Officials from the **Department of Conservation** assume this proposal would result in additional cost to the Conservation Commission Fund of approximately \$2.5 million for the first year.

Officials from the **Department of Labor and Industrial Relations (DOLIR)** assume the proposal would tie state employee salary increases to changes in the Consumer Price Index. Based on the 2.631% increase from 2003 to 2004, the cost to DOLIR would be as follows:

Fund	FY 2007	FY 2008	FY 2009
Special Employment Security	\$1,753	\$2,157	\$2,211
Crime Victims Compensation	\$6,310	\$7,762	\$7,955

Officials from the **Department of Transportation** (MODOT) assume this proposal would provide for a salary adjustment every July for all state employees. The adjustment would be based on the percentage change of the Midwest Region Consumer Price Index then rounded to the nearest multiple of one hundred dollars. MODOT estimated the cost of the proposal as follows:

	FY 2007	FY 2008	FY 2009
Aviation Trust Fund	\$0	\$13,549	\$13,549
Road Fund	\$0	\$8,695,234	\$8,695,234

Multimodal Fed Fund	\$0	\$14,516	\$14,516
All Federal Funds	\$0	\$25,300	\$25,300

Officials from the **Office of Administration, Division of Personnel** assume this proposal would impact the manner in which state employee pay increases are applied and the manner in which pay is administered. Annual pay increases would be tied to increases in the Consumer Price Index as determined by the U.S. Department of Labor, Bureau of Labor Statistics for the Midwest Region of the United States which contains the State of Missouri. The following estimate is based on the FY 2006 Total Personal Service (TPS) estimates supplied by the Office of Administration, Division of Budget and Planning. For every one percent increase in the Consumer Price Index, the state would incur the following costs:

	TPS	Benefits	TPS + Benefits	1% TPS + Benefits
GENERAL REVENUE	\$1,032,239,278	\$217,596,040	\$1,249,835,318	\$12,498,353

DESCRIPTION

This proposal would adjust state employee salaries.
