**FISCAL ANALYSIS**

**ASSUMPTION**

Officials from the **Coordinating Board for Higher Education** assume the proposal would not fiscally impact their agency.

Officials from the **Department of Public Safety - Director's Office** assume the proposal would not fiscally impact their agency.

Officials from the **Department of Public Safety - Office of the Adjutant General (OTAG)** state the National Guard Tuition Assistance statute requires a recipient of State Tuition Assistance (TA) to remain an active member of the military organization for three years after the last course of study is completed in which the recipient received state TA.

The proposed revision to the law would grant credit to the 3 year military membership commitment required of State TA grantees, each semester of military active duty performed.

OTAG assumes no fiscal impact on state programs they administer.

## DESCRIPTION

This proposal provides that if a recipient of educational assistance under the act ceases to maintain their active military affiliation while enrolled in an academic semester or term at an institution of higher education for any reason except death, disability, or medical disqualification, the educational assistance shall be terminated and the recipient shall be required to repay any amounts awarded under this section. The act also eliminates the provision which states that the recipient must repay assistance awarded if he or she ceases to maintain their military affiliation within three years after completion of a course of study.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
