**FISCAL ANALYSIS**

**ASSUMPTION**

Officials from the **Office of the Governor, Office of Administration, Department of Economic Development, Public Service Commission, Department of Transportation and Patrol Employees' Retirement System, Department of Mental Health, Department of Health and Senior Services, Department of Labor and Industrial Relations, Department of Revenue, Missouri Gaming Commission, Missouri Consolidated Health Care Plan, Department of Insurance, Joint Committee on Public Employee Retirement, Joint Committee on Legislative Research, Office of the Lieutenant Governor, Department of Conservation, Missouri Ethics Commission, Missouri House of Representatives, State Auditor's Office, Missouri Senate, Office of the Secretary of State, and the State Tax Commission** assume the proposal would have no fiscal impact on their agencies.

Officials from the **Office of State Courts Administrator** assume the proposed legislation would have no fiscal impact on the courts.

ASSUMPTION (continued)

Officials from the **Department of Agriculture (AGR)** state the eight commissioners of the Missouri State Fair Commission are appointed by the Governor and would need to be fingerprinted for a background check. AGR assumes there would be a potential of 8 background checks per year through the Missouri State Highway Patrol at \$15 each for fingerprinting. AGR assumes the cost to be approximately \$120 per fiscal year.

Officials from the **Coordinating Board for Higher Education** assume, if the responsibility of covering the fees associated with background checks on gubernatorial appointees is that of the department associated with a board or commission, the proposal could result in a negative fiscal impact.

**Oversight** assumes the Department of Agriculture and the Coordinating Board for Higher Education could absorb the cost of background checks for gubernatorial appointees within existing resources.

Officials from the **Department of Social Services – Division of Youth Services (DYS)** assume at least 500 background checks will be required to fill vacancies. Based on the provision that fingerprinting would be between \$9 and \$15 per applicant, DYS assumes the cost of fingerprint checks for its new hires to be between 44,500 and \$5,500 during the first three years, if the division wishes to conduct these checks. Therefore, DYS assumes a fiscal impact of \$0 to less than or equal to \$4,500 in FY 07, \$0 to less than or equal to \$5,000 in FY 08, and \$0 to less than or equal to \$5,500 in FY 09.

Officials from the **Department of Social Services – Human Resource Center** assume the language in this bill appears to make conducting fingerprint background checks an option, rather than mandatory. It also appears the Department of Social Services could require the applicant/employee to pay the cost for this check. For these reasons, a fiscal impact could not be determined at this time.

Officials from the **Missouri Lottery** assume the following increase in costs to the Lottery Enterprise Fund and corresponding reductions to the Lottery Proceeds Fund for Education: \$37,718 in FY 07, \$47,138 in FY 08, and \$56,558 in FY 09.

Officials from the **Department of Public Safety – Missouri State Water Patrol (MSWP)** assume criminal history checks on civilian and officer job applicants could cost as much as \$15 per request. MSWP requests up to 50 background checks per year for an annual cost of \$750.

ASSUMPTION (continued)

Officials from the **Department of Public Safety – Missouri Veterans Commission** (VET) assume they would conduct background checks on 765 FTE. VET assume the cost would be \$11,475 annually from the Home Fund.

Officials from the **Department of Public Safety – Missouri State Highway Patrol** state there are approximately 60,000 state employees. Based on data retrieved from the Turnover by Agency report (1/1/05 through 12/31/05), 17% of these employees will have criminal background checks conducted by the state and FBI.  $17\% \times 60,000 = 10,200$  employees  $\times \$24 = \$244,800$  (passed through to the FBI).

**Oversight** assumes the provisions allowing state agencies to require fingerprinting of applicants and criminal history records checks are permissive. Therefore, Oversight has ranged the cost from \$0 to \$244,800 per fiscal year to various state funds.

**Oversight** has shown the fiscal impact to the Criminal Records Fund as a range from \$0 to \$244,800 per fiscal year because state agencies may choose not to require criminal history records checks on applicants.

DESCRIPTION (continued)

§43.530 – Fees for Criminal Background Checks

Currently, an entity making a request for criminal history record information that is not based on a fingerprint search must pay a fee of not more than \$5 per request. Under this section, an entity cannot be made to pay more than \$9 dollars for such a request. However, after January 1, 2007, the central repository of the Highway Patrol may increase the fee by not more than \$1 per year. Under no circumstances shall the fee exceed \$15 dollars per request.

Currently, an entity making a request for criminal history record information that is based on a fingerprint search must pay a fee of not more than \$20 per request. Under this section, an entity cannot be made to pay more than \$15 dollars for such a request.

§43.546 – Background Checks by State Agencies

This section allows any state agency to require an applicant to provide fingerprints in specified occupations for the purposes of positive identification and receiving criminal history record information when determining an applicant's ability to serve in such an occupation.

In order to do so, the applicant or employee must submit a set of fingerprints. These fingerprints and the accompanying fees are forwarded to the Highway Patrol to search the state criminal history repository and the FBI for a national criminal background check. All records related to any criminal history information discovered shall be accessible to the state agency making the request.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
