FISCAL ANALYSIS

ASSUMPTION

Officials from the **Attorney General's Office, Department of Corrections, Department of Revenue, Department of Transportation, Office of Administration, and Department of Health and Senior Services** assume no fiscal impact to their agency.

Officials from the **Department of Natural Resources** assume this proposal would change the amount retained by the Department of Revenue in the collection of the battery fee to 1% of net proceeds received from the battery fee. Currently the DOR keeps 4% of net proceeds received from the battery fee with the remaining amount deposited to the Hazardous Waste Fund. The net proceeds of the battery fee received by the DOR would decrease, and deposits to the Hazardous Waste Fund would increase by the same amount. There, the net fiscal impact to state funds would be zero.

FISCAL IMPACT - Small Business

It will possibly ease the financial burden on small quantity hazardous waste generators by removing annual registration fee (\$100).

DESCRIPTION

The act makes various technical changes to sections pertaining to hazardous waste.

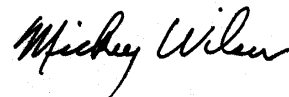

The act allows the Department of Revenue to keep one percent of the lead acid battery fee, a change from the current four percent. The act removes the current requirement that in-state hazardous waste generators pay an annual registration fee of one hundred dollars. Resource recovery facilities have been added to the list of entities required to pay an annual fee for hazardous waste received from outside the state; all revenue from such fees shall be deposited to the hazardous waste fund.

DESCRIPTION (continued)

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
