FISCAL ANALYSIS

ASSUMPTION

The **Joint Committee on Public Employee Retirement (JCPER)** has reviewed this proposal and has determined an actuarial study is not needed under the provisions of section 105.660, subdivision (5). However, provisions contained in this proposal will increase the Unfunded Actuarial Accrued Liabilities (UAAL) of the affected systems and result in an increase of annual employer contributions. The impact to the system can only be determined by an actuarial cost statement, however it is expected to be less than .25% of payroll.

Officials with the **Police Retirement System of Kansas City** assume for both the Police Retirement System of Kansas City, Missouri and the Civilian Employees' Retirement System of the Police Department of Kansas City, Missouri that an actuarial estimate of the impact of HB 180 was completed in compliance with Section 105.660RSMo, even though the impact of HB 180 does not increase the total contribution percentage by at least one quarter of one percent.

ASSUMPTION (continued)

For the Police Retirement System the actuaries assumed that at any one time, five members of the retirement system would be on military leave for a one-year period. To provide creditable service at no cost to the member would increase the computed employer contribution rate by 0.11% or \$81,174 in FY2007.

For the Civilian Employees' Retirement System the actuaries assumed that at any one time, one member of the retirement system would be on military leave for a one year period. To provide creditable service at no cost to the member would increase the computed employer contribution rate by 0.02% or \$4,857 in FY2007.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This act changes provisions regarding military leave for Kansas City police officers and civilian employees. Members of the Police Retirement System of Kansas City and the Civilian Employees' Retirement System of the Police Department of Kansas City who are on leave of absence due to military service in which the United States has declared war, a compulsory draft, or the combat mobilization of any units of the military reserves are entitled to service credit for the time spent in the military service. During their military service, members are not required to pay any member contributions into the retirement system.

Should it becomes necessary for the years of the service to be included in the calculation of the member's compensation, the member will be deemed to have received the same compensation throughout the period of service as the member's base annual salary immediately prior to the commencement of the leave of absence.

Eligible members who are absent because of the military leave are entitled to federal employment and re-employment rights.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
