FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of State Courts Administrator**, the **Office of Prosecution Services**, the **Department of Public Safety**, **Office of the Director**, and the **Missouri Gaming Commission** assume this proposal would have no fiscal impact on their organizations.

Officials from the **Lottery Commission (LOT)** assumes these types of machines would be played in social environments to the detriment of Missouri Lottery pulltab and keno sales. Our calculation is that 50 percent of our pulltab and keno retailers will lose 50 percent of lottery sales. Annual profit loss to the Lottery Proceeds Fund for Education is estimated at \$1,000,000 for pulltabs and \$3,562,500 for keno, for a total annual loss of \$4,562,500.

Oversight notes this proposal allows a player to win something of value that does not exceed \$5 per play, except for cash, liquor, beer or tobacco products. Therefore, Oversight assumes this proposal deals with devices that will not be in direct competition with lottery sales, and assumes that there will be minimal impact to the Missouri Lottery Commission.

<u>FISCAL IMPACT - Local Government</u>	FY 2007 (10 Mo.)	FY 2008	FY 2009

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

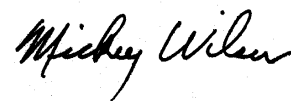

DESCRIPTION

This proposal would define as amusement devices any device that confers only an immediate right of replay or coupon credit. Coupon credits could only be redeemed on the premises for something of value that does not exceed five dollars per play, and could not be redeemed for cash, intoxicating liquor, intoxicating beer, or tobacco products. Amusement devices as defined would be exempted from regulations regarding gambling and gambling devices.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
