FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Agriculture (AGR)** assume the Weights and Measures Division has 130 companies registered that perform work on petroleum devices and associated equipment. This proposed legislation would require them to provide the AGR evidence of financial responsibility on an annual basis. Due to the low number of registrants, duties associated with collection of this information can be absorbed with current staff. The AGR will promulgate rules on acceptable forms of financial responsibility and documentation.

Officials from the **Department of Health and Senior Services** assume this proposal would not be expected to fiscally impact the operations of the department. If a fiscal impact were to result, funds to support the program would be sought through the appropriations process.

Officials from the **Department of Natural Resources** would not anticipate any significant direct fiscal impact from this proposal.

FISCAL IMPACT - Small Business

This proposal would require small businesses that install, or repair fuel storage tanks or piping to maintain evidence of financial responsibility to cover the costs of corrective action directly related to releases caused by improper manufacture, installation, or repair of such tank or piping.

DESCRIPTION

The act requires anyone who manufactures, installs, or repairs fuel storage tanks or piping for such tanks to maintain evidence of financial responsibility of one million dollars per occurrence and two million dollars in the aggregate to cover the costs of corrective action after a fuel release. The evidence shall be presented annually to the Department of Agriculture.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
