FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of the Attorney General, Department of Health and Senior Services, Department of Labor and Industrial Relations, Department of Social Services, Department of Public Safety – Missouri State Highway Patrol, and the Department of Insurance** assume the proposal would have no fiscal impact on their agencies.

In response to a previous version of the proposal (Perfected SS for SCS for SB 1041, LR # 5118-07), officials from **Missouri Consolidated Health Care Plan** assumed the proposal would have no fiscal impact on their agency.

Officials from the **Office of State Courts Administrator** assume the proposed legislation would have no fiscal impact on the courts.

In response to a previous version of the proposal (SCS for SB 1041, LR # 5118-03), officials from the **Office of Prosecution Services** assumed the proposal will not have a significant direct fiscal impact on county prosecutors, although it may lead to an increase in prosecutions/caseloads.

ASSUMPTION (continued)

In response to a previous version of the proposal (Perfected SS for SCS for SB 1041, LR # 5118-07), officials from the **Department of Corrections (DOC)** assumed they cannot predict the number of new commitments which may result from the creation of the offense(s) outlined in this proposal. An increase in commitments depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase in operational cost either through incarceration (FY05 average of \$39.13 per inmate, per day or an annual cost of \$14,282 per inmate) or through supervision provided by the Board of Probation and Parole (FY03 average of \$3.15 per offender, per day or an annual cost of \$1,150 per offender).

In summary, supervision by the DOC through probation or incarceration would result in additional unknown costs to the department. Eight (8) persons would have to be incarcerated per fiscal year to exceed \$100,000 annually. Due to the narrow scope of this new crime, it is assumed the impact would be less than \$100,000 per year for the DOC.

Officials from the Office of the State Public Defender did not respond to Oversight's request for fiscal impact.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

The proposed legislation creates the crime of knowingly receiving, selling, or obtaining personal health information without the person's consent, a class C felony. There are exemptions for law enforcement officers, the Missouri Attorney General, and county or municipal prosecutors performing their official duties. There are also exemptions for health care providers obtaining, using, disclosing, or permitting access to any personal health information record as otherwise authorized or required by state or federal law. There are exemptions for insurance companies and workers' compensation carriers. No provision of this section shall be construed so as to limit conducting any medical research. No provision of this section shall be construed to prohibit reporting personal health information where authorized or required by law.

This proposal would become effective on January 1, 2007.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
