FISCAL ANALYSIS

ASSUMPTION

Officials from **Department of Public Safety - Division of Fire Safety (DFS)** state the proposed legislation contains several fire service-related issues. First, it defines "fire department", and specifies the annual reporting requirement for departments to register with the Division of Fire Safety. The legislation also further defines a volunteer fire protection association. These clear definitions are needed when departments apply for federal and state assistance, and will assist the Division in maintaining clear and accurate records for Missouri fire departments.

DFS states that currently, they have 898 fire departments registered in Missouri. DFS assumes the proposal will not fiscally impact their agency.

Officials from the **Department of Labor and Industrial Relations** assume the proposal will not fiscally impact their agency.

Officials from the cities of **Cape Girardeau, Columbia, Jefferson City, Springfield** and **St. Charles** did not respond to our request for fiscal impact. Officials from the **Desoto Rural Fire Protection District**, the **Boone County Fire District** and the **Lake Saint Louis Fire District** also did not respond to our request for fiscal impact.
