FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Natural Resources, Office of the Governor, Office of the State Courts Administrator, Office of the State Public Defender, Department of Public Safety - Director's Office** and the **Department of Conservation** each assume this proposal would not fiscally impact their respective agencies.

Officials from the **Department of Public Safety - Division of Fire Safety (DFS)** state this act makes it illegal to set any fire in an area that has been proclaimed, by executive order, to be in extraordinary danger from fire. DFS will advise the Governor's Office when conditions exist which may warrant a burn ban executive order. DFS would also assist local political subdivisions in the enforcement of this legislation. Anyone violating the provisions of the act shall be guilty of a Class A misdemeanor. The act also allows in a separate cause of action, political subdivisions to seek recovery of reasonable costs incurred when fighting any fire set by an individual violating the provisions of the act. DFS assumes the proposal will not fiscally impact their agency.

Officials from the **Department of Corrections (DOC)** state they could not predict the number of new commitments which may result from the creation of the offenses(s) outlined in this proposal. An increase in commitment depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC would incur a corresponding increase in operational cost through supervision provided by the Board of Probation and Parole (FY 03 average of \$3.15 per offender, per day or an annual cost of \$1,150 per offender per year).

Supervision by the DOC through probation or incarceration would result in some additional costs, but it is assumed the impact would be \$0 or a minimal amount that could be absorbed within existing resources.

Officials from the **Office of Prosecution Services (OPS)** state this proposed legislation includes provisions for new criminal acts and therefore creates new obligations for prosecuting attorneys. Any increase in the number of cases referred for criminal prosecution and any new statutory obligations for prosecutors will have an additional fiscal impact on County Prosecutors. However, officials from the OPS are not aware of any estimates of the number of additional

criminal cases that would be referred to County Prosecutors for charges because of this proposed legislation. Additionally, the OPS is not otherwise able to establish a workable estimate of the number of additional criminal cases that would be referred to County Prosecutors for charges or how many additional hours the proposed statutory obligations would require of prosecutors. It is therefore, not possible to determine the extent to which this proposal would have a direct fiscal impact on county prosecutors or the Office of Prosecution Services.

Oversight assumes this proposal would not fiscally impact the OPS.

FISCAL IMPACT - Small Business

FISCAL DESCRIPTION

The proposed legislation appears to have no fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
