FISCAL ANALYSIS

ASSUMPTION

Officials at the **Missouri Department of Transportation (MoDOT)** assume the number of carriers regulated for household goods moving would increase, due to the large number of commercial zone only movers operating in St. Louis, Kansas City and Springfield among others.

By increasing the number of motor carriers and their motor carrier vehicles within the Missouri Highway and Transportation Commission's (MHTC) regulatory jurisdiction, this legislation would generate additional license fee revenues for MHTC from the sale of additional regulatory licenses to these carriers pursuant to section 390.136, RSMo. The positive fiscal impact for the additional license fees is unknown.

This bill would also result in a significant number of additional motor carriers applying to MHTC for operating authority certificates and permits to transport household goods, because the changes to section 390.030 would eliminate the exemptions currently applicable to motor vehicles operated wholly within a single municipality, or between contiguous municipalities, or within a commercial zone as defined in § 390.020, RSMo, or a commercial zone as defined by an administrative order issued under § 390.041(4), RSMo. This increase in the number of household goods motor carrier operating authority applications would place an undetermined additional workload on MoDOT's Motor Carrier Services Division to process these new applications, and to enforce the requirements of chapter 390, RSMo, with reference to these formerly exempt motor carriers. The cost to implement these provisions is unknown. However, MoDOT does not believe the cost to implement this legislation will be more than the revenue received.

Officials at MoDOT assume the total fiscal impact of this legislation is unknown.

Officials at the **Office of the State Courts Administrator** assume no fiscal impact from this proposal.

Oversight assumes that there will be an increase in the revenue generated from the issuance of the additional license fees and that the revenue generated will be greater than the cost to MoDOT to implement the proposal. The fiscal impact is unknown.

FISCAL IMPACT - Small Business

The bill would impact small businesses by making MHTC's licensing and regulatory requirements for motor carriers under Chapter 390, RSMo, applicable to an unknown number of small businesses that operate as motor carriers of household goods, using motor vehicles that are currently exempted from the provisions of chapter 390, RSMo, by 390.030.1(8) & (10), RSMo. These exemptions currently apply to vehicles municipalities, or within a commercial zone.

Officials at MoDOT assume the total fiscal impact of this legislation is unknown.

FISCAL DESCRIPTION

This bill allows a common carrier of household goods to file an application with the State Highways and Transportation Commission for approval of rates to reflect increases and decreases in the carrier's cost. The filing of the application will follow similar rules that govern rate adjustments requested by electrical, gas, or water companies. The commission will determine the form in which the application is to be made. Beginning January 1, 2008, motor carriers that transport household goods will be prohibited from operating wholly in municipalities, between contiguous municipalities, or in commercial zones without obtaining Department of Transportation authority. Currently, household carriers are exempt from the rules

and regulations of Chapter 390, RSMo, if their operations are restricted to those described areas.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
