## FISCAL ANALYSIS

### ASSUMPTION

The **Joint Committee on Public Retirement** indicates that this legislation does represent a “substantial proposed change” in future plan benefits as defined in Section 105.660(5). Therefore, an actuarial cost statement as defined in Section 105.665 must be provided prior to final action on this legislation by either legislative body or committee thereof.

Pursuant to Section 105.670, this actuarial cost statement must be filed with 1) the Chief Clerk of the Missouri House of Representatives, 2) the Secretary of State and 3) the Joint Committee on Public Employee Retirement as public information for at least (5) legislative days before final passage of the bill.

An actuarial cost statement for this legislation has been filed with the Joint Committee on Public Employee Retirement.

Officials from the **Kansas City Police and Civilian Retirement System** assume any retired member or eligible surviving spouse of the Police Retirement System not eligible for the 2.5% multiplier would be eligible for an equalizing supplemental benefit of \$10 per month. The amount of the equalizing supplemental benefit may be adjusted by cost of living adjustments but in no event shall the aggregate of the equalizing supplemental benefit and cost of living adjustments exceed 25% of the member's base pension.

The proposed benefit would increase the computed employer contribution rate for FY2008 by 0.09%, employer contributions would increase by \$70,602 and the unfunded actuarial accrued liability would increase by \$1,091,366 to \$140,741,769.

Future retired members of the Civilian Employees' Retirement System for the Police Department of Kansas City must have 15 years of service at the time of retirement to receive the supplemental benefit which currently at \$160.00 per month. (The living adjustments). Any member eligible for a disability retirement will also be eligible for the supplemental benefit upon retirement. Current retired and disabled members and their surviving spouses are eligible to receive the supplemental benefit in addition to pension benefits.

The proposed change would decrease the computed employer contribution rate for FY2008 by - 0.37%, employer contributions would decrease by \$96,471 and the unfunded actuarial accrued liability would decrease by \$486,000 to \$26,595,325.
