FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Social Services, Office of Administration** and the **Office of the Secretary of State** each assume the proposal would have no fiscal impact on their respective agencies.

Officials from the **Office of the Attorney General** states that the provisions of this proposal do not directly affect this office. However, AGO assumes that because this proposal has the potential to be the subject of litigation, costs are unknown, but are likely to be less than \$100,000.

Officials from the **Department of Health and Senior Services (DHSS) - Division of Regulation and Licensure** assumes this proposal could result in a small increase in the number of ambulatory surgical centers to be licensed, but that the number would be small enough that no additional staff would be required and additional expenses would be minimal. Therefore, this proposal would not be expected to fiscally impact the operations of the DHSS. If a fiscal impact were to result, funds to support the program would be sought through the appropriations process.
