FISCAL ANALYSIS

ASSUMPTION

Officials of the **Department of Health and Senior Services** assume no fiscal impact to their department.

Oversight sent a fiscal note response request to several township counties and none have responded.

Oversight assumes this proposal as written is permissive, and would have no fiscal impact without action of the governing body with voter approval.

Oversight will show fiscal impact as though voters were to approve an increase in property taxes to establish a Community Health District.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal. Small businesses located in a township that would have voter approval to establish a Community Health District could expect to pay an increase in property taxes that could not exceed thirty-five cents per one hundred dollars of assessed valuation.

FISCAL DESCRIPTION

The proposed legislation appears to have no fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
