**FISCAL ANALYSIS**

ASSUMPTION

Officials at the **Department of Insurance, Financial Institutions and Professional Registration** assume the fiscal impact is indeterminable at this date. The impact is likely to be positive as it appears to lower the volume of meetings required for the Credit Union Commission, saving the Division the expense of per diem and mileage. While there will be some resources needed to implement the changes this bill would bring, it could be handled with current staff and no FTE requests appear to be needed. The Division is currently faced with the threat of a major loss of revenue as there is a serious threat of credit unions departing the state charter and converting to a federal charter for this specific reason (field of membership). Earlier in CY 2006, a large credit union converted and many more may follow in the event the field of membership situation is not settled in a timely manner. As the Division is wholly funded by state-chartered credit unions, loss of assessment would severely damage our ability to serve the remaining credit union industry and citizens.

**Oversight** assumes that any costs associated with implementing this proposal would be absorbed with existing resources. Oversight assumes this proposal would not have a fiscal impact on state funds.

FISCAL IMPACT - Small Business

FISCAL DESCRIPTION
