

COMMITTEE ON LEGISLATIVE RESEARCH
OVERSIGHT DIVISION

FISCAL NOTE

L.R. No.: 3388-06
Bill No.: Perfected SS for SCS for SB 726
Subject: Education, Elementary and Secondary; Education, Higher; Socials Services
Department; Health Department; Children and Minors
Type: Original
Date: March 12, 2008

Bill Summary: This legislation creates a quality rating system for child care facilities, exempts certain neighborhood youth development programs from state child care licensing requirements and establishes the Missouri Preschool Plus Grant Program.

The provisions relating to the quality rating system will sunset in six years. Also, the provisions relating to the preschool plus grant program will sunset, if not reauthorized, in six years.

FISCAL SUMMARY

ESTIMATED NET EFFECT ON GENERAL REVENUE FUND			
FUND AFFECTED	FY 2009	FY 2010	FY 2011
General Revenue	(Unknown but Greater than \$6,042,093)	(Unknown but Greater than \$6,620,792)	(Unknown but Greater than \$8,117,806)
Total Estimated Net Effect on General Revenue Fund	(Unknown but Greater than \$6,042,093)	(Unknown but Greater than \$6,620,792)	(Unknown but Greater than \$8,117,806)

Numbers within parentheses: () indicate costs or losses.
This fiscal note contains 11 pages.

ESTIMATED NET EFFECT ON OTHER STATE FUNDS			
FUND AFFECTED	FY 2009	FY 2010	FY 2011
Total Estimated Net Effect on <u>Other</u> State Funds	\$0	\$0	\$0

ESTIMATED NET EFFECT ON FEDERAL FUNDS			
FUND AFFECTED	FY 2009	FY 2010	FY 2011
Total Estimated Net Effect on <u>All</u> Federal Funds	\$0	\$0	\$0

ESTIMATED NET EFFECT ON FULL TIME EQUIVALENT (FTE)			
FUND AFFECTED	FY 2009	FY 2010	FY 2011
General Revenue	2 FTE	2 FTE	2 FTE
Total Estimated Net Effect on FTE	2 FTE	2 FTE	2 FTE

Estimated Total Net Effect on All funds expected to exceed \$100,000 savings or (cost).

Estimated Net Effect on General Revenue Fund expected to exceed \$100,000 (cost).

ESTIMATED NET EFFECT ON LOCAL FUNDS			
FUND AFFECTED	FY 2009	FY 2010	FY 2011
Local Government	\$0	\$0	\$0

FISCAL ANALYSIS_____

ASSUMPTION

Officials from the **Office of the Missouri Senate, University of Missouri, Office of the State Treasurer** and the **Office of the Missouri House of Representatives** each assume the proposal would have no fiscal impact on their respective agencies.

Officials from the **Department of Mental Health (DMH)** assume this proposed legislation places no requirements upon the DMH, other than collaborating with the Department of Social Services and the Department of Elementary and Secondary Education. DMH collaborates with other state agencies in many areas; therefore, there should be no significant cost to the DMH associated with this bill.

Officials from the **Department of Elementary and Secondary Education (DESE)** state the following:

Section 210.205:

DESE is to work in collaboration with the Department of Social Services, the Department of Health and Senior Services and the Department of Mental Health to develop a voluntary quality rating system for child care facilities and early childhood programs operated in this state. DESE anticipates cost relating to travel, employee time, and resource materials; however, DESE does not expect these costs to be significant.

Section 162.1168:

Per the terms of the proposal, the General Assembly shall appropriate five million dollars in any fiscal year to fund the provisions of this section.

Based on historical costs associated with the Missouri Preschool Program, DESE estimates \$150,000 for the first year of a brand new preschool classroom of 20 students with one teacher and \$120,000 for subsequent years. Limiting the appropriation to \$5,000,000 per year could limit the amount of children served per year; therefore, the program may not capably serve up to one thousand two hundred and fifty students as called for in the proposal.

ASSUMPTION (continued)

Officials from the **Department of Health and Senior Services (DHSS)** assume the following:

Proposed Sections 210.205. 1. - 3:

Based on discussion with the Department of Social Services (DSS), all costs related to the development of the rating system will be included in the DSS fiscal notes response. The Division of Regulation and Licensure (DRL) assumes that any collaboration between the DHSS and the DSS required by the proposal would be accomplished with existing staff and resources. DHSS assumes no cost to develop the rating system.

Proposed Section 210.205.4:

The proposal requires DSS to administer the newly created "Early Childhood Program Quality Improvement Grant Fund". The DHSS assumes no cost related to this fund.

Proposed Section 210.205.5:

Based on discussion with DSS, their costs related to developing the rating system will include the costs of collection, development and distribution in Subsection (1) and (2). Subsection (3) requires that the provider ratings be posted on the Internet. Based on information received from the Office of Administration-Information Technology Services Division, \$50,000 is included as an estimate of the cost to post this information on the DHSS Internet site. It is assumed that this cost would be paid from General Revenue during FY 2009.

Proposed Section 210.205.6:

The proposal requires DSS to promulgate rules. The DHSS assumes no cost related to rules.

Proposed Section 210.278:

The proposal exempts neighborhood youth development programs from child care licensing provisions in Chapter 210 if the program meets certain requirements. One of those requirements is that they screen all employees and volunteers through the Family Care Safety Registry (FCSR).

DRL attempted to obtain information regarding the number of Boys and Girls Clubs and their staffing in the state, but have not been able to obtain any data. Therefore, DRL is estimating the fiscal impact on the FCSR as unknown, greater than \$100,000.

Potential Future Costs:

Implementation of this proposal might result in an increase in the number of licensed facilities with a corresponding increased inspection workload for the Section for Child Care Regulation. If such an increase were to occur, the program would ask for additional staff through the budget

process at a later date.

ASSUMPTION (continued)

The increased demand for required annual training hours for licensed providers has the potential to exceed the current training capacity of the Missouri Child Care Resource and Referral Network (MOCCRRN). If such an increase were to occur, the program would ask for additional funding through the budget process at a later date.

Officials from the **Department of Social Services** (DSS) assume the proposal requires DSS to utilize the model from the existing Missouri Quality Rating System pilots developed by the University of Missouri Center of Family Policy and Research. Therefore, the Children's Division (CD) provided its estimate of costs for this fiscal note based largely on estimates prepared by the University of Missouri. There are four components to the cost:

- (1) The cost of implementing the Quality Rating System, which involves reviewing and monitoring all licensed providers in the state.
- (2) The Quality Rating System Program Improvement Grant Funds, which provides grants directly to licensed providers to help them improve their operations and achieve a higher level on the quality rating scale.
- (3) A tiered system of reimbursement for child care subsidies based on the quality rating system.
- (4) Two FTE within the Children's Division.

The UMC estimates are based on an ongoing process that increases the number of programs rated each year until FY 13 when 70% of the providers would be rated. FY 14 and FY 15 costs are shown if, hypothetically, all facilities were to be rated. That schedule is shown below:

<u>Year</u>	<u>Percent Rated</u>	<u>QRS</u>	<u>Improvement Fund (Optional)</u>	<u>Total Cost</u>
FY 09	10%	\$780,228	\$0	\$780,228
FY 10	25%	\$1,397,575	\$0 to \$2,250,000	\$1,397,575 to \$3,647,575
FY 11	40%	\$1,890,891	\$0 to \$3,600,000	\$1,890,891 to \$5,490,891
FY 12	55%	\$2,663,048	\$0 to \$4,950,000	\$2,663,048 to \$7,613,048
FY 13	70%	\$3,454,020	\$0 to \$6,300,000	\$3,454,020 to \$9,754,020
FY 14	85%	\$4,321,489	\$0 to \$7,650,000	\$4,321,489 - \$11,971,489

FY 15 100% \$5,257,261 \$0 to \$9,000,000 \$5,257,261 - \$16,650,000

ASSUMPTION (continued)

While it's reasonable to assume that as long as this is a voluntary system, that the best estimate of the percentage of providers that will choose to be rated will be approximately 70%, the projections for FY 14 and FY 15 are for illustrative purposes only and assume the most extreme scenario that all 100% of providers will choose to be rated.

By July 1, 2011, all licensed facilities receiving quality improvement funds or services shall be rated using the quality rating system. CD assumes that these facilities will be rated in the first three years. The proposal sets the target date for all mandatory providers to be rated by July, 2011. However, the target date for implementation of a tiered subsidy system based on those ratings is July, 2010, a year prior to the date all mandatory providers must be rated. If the subsidy system is changed prior to all mandatory providers being rated allowing some providers to get higher rates before others have even been rated, it could be a point of contention for those providers still awaiting rating.

Because this proposal establishes, but does not fund, the Quality Rating System Program Improvement Grant Fund CD is showing the proposed funding for this part of the program as optional and as a range.

CD expects to implement a tiered subsidy system beginning in FY 11, the cost is unknown at this time, but is anticipated by MU to be several million dollars. Therefore, CD has shown the cost as "unknown greater than \$1,000,000. Factors that may influence cost are adjustments to parental sliding fee/co-payment, actual cost variances between the various QRS levels, income eligibility level increases, etc.

CD anticipates the need for two Program Development Specialists. One would be responsible for UMC grant oversight and be the liaison with the Coordinating Board for Early Childhood to develop and implement the tiered reimbursement system. The other would be responsible for administering the Quality Rating System Program Improvement Grant Fund.

FISCAL IMPACT - Small Business

Childcare providers may incur costs for quality improvements in order to achieve their desired level of quality rating. Neighborhood youth development programs could incur the cost of registering employees/volunteers with the Department of Health and Senior Services, Family Care Safety Registry.

FISCAL DESCRIPTION

QUALITY RATING SYSTEM:

This legislation requires the Department of Social Services in collaboration with the Departments of Health and Senior Services, Elementary and Secondary Education, and Mental Health to develop by September 1, 2008, a quality rating system for early childhood and before-and after-school programs licensed by the Department of Health and Senior Services that operate in this state. The licensing of such facilities shall be the baseline, while the highest rating includes accreditation. All early childhood programs accredited by the Nation Association for the Education of Young Children shall receive the highest level of the rating system. The Departments shall utilize the model from the existing Missouri quality rating system pilots developed by the University of Missouri Center for Family Policy and Research to establish the system. The system will allow consumers and parents to evaluate and select high quality programs and creates a system of accountability for policymakers and those who fund such programs.

By July 1, 2011, all licensed child care facilities voluntarily receiving quality improvement funds and services shall, upon the facilities' request, be rated using the quality rating system established under this legislation. The Coordinating Board of Early Childhood shall develop a plan for a tiered system of reimbursement for child care subsidies based on the quality rating system established under this legislation. The proposed plan shall be submitted to the General Assembly with recommendations for implementation of the reimbursement system by December 31, 2009. The plan shall only become effective upon passage of a concurrent resolution by the General Assembly authorizing the implementation of the plan.

FISCAL DESCRIPTION (continued)

The Quality Rating System Program Improvement Grant Fund is established and shall consist of all gifts, donations, transfers, moneys appropriated by the general assembly, and bequests to the fund. Money in the fund shall be used to provide grants directly to licensed providers seeking assistance for quality improvements to undergo evaluation under the quality rating system established under this legislation or to community-based organizations assisting providers with such improvements. The grants shall be awarded in such a manner to ensure geographic diversity among the grantees.

The Department of Social Services in collaboration with the Departments of Health and Senior Services, and Elementary and Secondary Education shall be responsible for promoting and distributing materials to educate the public and providers about the quality rating system established under this legislation. By January 1, 2010, the ratings of the quality rating system shall be posted on the Internet in a format easily understood and accessible by the public.

The provisions relating to the quality rating system shall sunset in six years.

NEIGHBORHOOD YOUTH DEVELOPMENT:

In addition, certain neighborhood youth development programs shall be exempt from state child care licensing requirements so long as the program meets specified standards and guidelines as prescribed in the legislation.

MISSOURI PRESCHOOL PLUS GRANT PROGRAM:

The legislation creates the Missouri Preschool Plus Grant Program as a pilot program within the Missouri Preschool Project. The program will serve up to 1,250 students with preschool services and will be administered by the Department of Elementary and Secondary Education in collaboration with the Coordinating Board for Early Childhood. School districts that are classified as unaccredited and non-sectarian community-based organizations located within such school districts may receive grants. Any school district that receives students from a provisionally accredited or unaccredited school district as a result of a school district boundary line change election, as provided in section 162.431, may also receive grants. Grants run for three years and are renewable. At least fifty percent of the placements must be offered through non-sectarian community-based organizations. Children who are one or two years away from kindergarten entry may participate in the program. Children of active duty military personnel will receive admission preference.

FISCAL DESCRIPTION (continued)

If a school district becomes classified as provisionally accredited or accredited, it may complete the length of an existing grant and be eligible for one additional renewal for three years. The program must comply with current early childhood standards. Community-based organization grantees may employ teachers with at least an associate's degree provided they show they are on the path to obtaining a bachelor's degree within five years. School districts and non-sectarian community-based organizations must collect short-term and long-term data about student performance where feasible. The Department must make a good faith effort to collect long-term student performance data as required in the legislation for students who attend non-public schools.

The Department will accept applications in a competitive bid process to begin implementing the program in the 2009-2010 school year. The program will be funded through general appropriations and will not be funded through money from the Gaming Commission Fund. The General Assembly must appropriate an amount sufficient to adequately fund the program, an amount of \$5 million in any fiscal year.

The provisions relating to the preschool plus grant program will sunset, if not reauthorized, in six years.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
