FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Secretary of State (SOS)** state the fiscal impact for this proposal for Administrative Rules is less than \$2,500. The SOS does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the SOS can sustain within its core budget. Therefore, the SOS reserves the right to request funding for the costs of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the Governor.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration (DIFP) - Division of Professional Registration (DPR)** state the proposal allows out-of-state licensed Certified Public Accountants (CPAs) to have all the privileges of licensure in this state. The DPR anticipates the proposal will result in a decrease in the number of new applicants for licensure. The DPR estimates a decrease of approximately 491 applications annually, with a resulting decrease of \$41,205 in annual revenue going to the Board of Accountancy Fund.

This proposal will result in a decrease in total state revenue.

FISCAL IMPACT - Small Business

The proposal may impact small business accounting firms if more out-of-state CPA's decide to practice in Missouri.

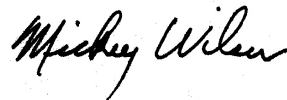

FISCAL DESCRIPTION

The proposal modifies the out-of-state equivalency requirements for certified public accountants. Currently, an individual having a valid designation to practice whose principal place of business is in a state with equivalent qualifications for licensure shall have all of the privileges of licensure in this state. The proposal allows those having an out-of-state domicile or residency to also qualify.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
