## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **City of Centralia, Clinton County and St. Louis County** assume no fiscal impact to their agencies.

Officials from the **Department of Natural Resources (DNR)** assume they will need staff to effectively administer these funds. General Revenue shortfalls in previous years resulted in staff reductions in this area.

The department assumes any need for additional resources would be pursued through the normal budgetary process.

Officials from the **Secretary of State's Office** assume most joint resolutions are considered by the General Assembly that would require the Secretary of State's office to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. The Secretary of State's office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with \$1.6 million historically appropriated in even numbered fiscal years and \$100,000 appropriated in odd numbered fiscal years to meet these requirements. The appropriation has historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2007, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost \$1.2 million to publish (an average of \$193,000 per issue). Therefore, the Secretary of State's Office assumes, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. However, because these requirements are mandatory, we reserve the right to request funding to meet the cost of our publishing requirements if the Governor and the General Assembly change the amount or eliminate the estimated nature of our appropriation.
