FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of the State Courts Administrator (CTS)** state the proposed legislation would create the "Deputy Sheriff Salary Supplementation Fund". The sheriff shall receive an additional \$10 for service of any summons, writ, subpoena, or other order of the court. While there are still problems interpreting the intent of these provisions, we are providing a response based on what we think the intent is.

In 2007, approximately 135,476 summonses were served by a sheriff. This number does not include the 21st, 25th, or 31st circuits. These circuits were not on JIS, the court automation program, for the entire 2007 year. It is estimated these circuits would increase the total number an additional 30% to approximately 176,119 summonses. The sheriff fee will generate approximately \$1,761,190 for sheriff departments. This estimate does not include possible revenues from service on a writ or order of the court.

Depending on how the legislation is implemented, there may be a cost, but there is no way to quantify the cost at this time. Any significant increase would be reflected in future budget requests.

In addition, the proposed legislation would require court personnel, prior to disclosure to the public, to omit the Social Security number, date of birth, address of any law enforcement officer, and any other personal identifier for a law enforcement officer from any criminal case. CTS assumes there may be some unknown impact on the workload of the courts. Any significant increase would be reflected in future budget requests.

Officials from the **Office of the State Treasurer** and the **Department of Public Safety - Highway Patrol** each assume the proposal would not fiscally impact their respective agencies.

Officials from the **Department of Public Safety - Director's Office** assume the proposal would not fiscally impact their agency if the new fund is administered by MoSMART.

In response to previous versions of the proposal, officials from the **City of Columbia** assumed no significant impact from the proposal.

ASSUMPTION (continued)

In response to previous versions of the proposal, officials from the **City of Centralia** and the **Missouri County Employee's Retirement Fund** each assumed no fiscal impact from the proposal.

In response to previous versions of the proposal, officials from the **Boone County Sheriff's Department (BCSD)** stated using 2007 figures, 13,361 papers were served by the BCSD, so approximately \$133,610 could go to the state treasury for this fund. However, the BCSD assumes none of this money would come back to their county. This would be an ongoing annual loss. Boone County deputies receive more competitive pay than most Sheriff's Departments in this state and therefore would likely not qualify to receive supplemental income from this fund. Therefore, the BCSD estimates an income and outflow of \$133,610 as a result of this proposal as this would be revenue generated by Boone County that would likely not come back to Boone County because our deputies likely won't qualify to receive supplemental income.

Oversight will utilize revenue estimates provided by CTS in the fiscal note. Oversight will show a gross amount of income collected by the county sheriff departments and then this revenue being transferred to the new state Deputy Sheriff Salary Supplementation Fund. These proceeds will then be transferred back to various county sheriff departments. Oversight assumes some counties will receive back more funds from the new state fund than what they collected, and conversely, Oversight assumes some counties will receive back zero or very little compared to the amount of revenue they collected and remitted to the new state fund.

Oversight assumes with the new language added to Subsection 650.350.4, MoSMART must administer the new fund with existing resources.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

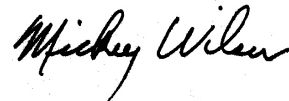

This bill creates the Deputy Sheriff Salary Supplementation Fund to supplement the salaries of county deputy sheriffs. The fund will consist of money collected from a \$10 increase in the fee charged by sheriffs for the service of any summons, writ, subpoena, or other order of the court in civil cases and will be administered by the Missouri Sheriff Methamphetamine Relief Taskforce.

Currently, peace officers who make traffic stops are required to receive annual training regarding the prohibition of race profiling. The bill changes the training requirement to three hours within the law enforcement continuing education three-year reporting period.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
