FISCAL ANALYSIS

ASSUMPTION

Oversight sent response request to several ambulance districts, but due to timing, none have responded.

Officials of the **Department of Health and Senior Services** assume no fiscal impact.

Oversight assumes there could be some costs to ambulance districts whose boards would establish requirements that the other attendant meet certain qualifications allowed by this proposal, and will show fiscal impact as either a \$0 for those districts that currently exceed state requirements, to a negative unknown for those districts that elect to increase staffing qualifications. Annual costs to ambulance districts, on a statewide basis, is indeterminable.

<u>FISCAL IMPACT - State Government</u>	FY 2009 (10 Mo.)	FY 2010	FY 2011

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

Under current law, each ground ambulance is required to be staffed with at least two licensed individuals when transporting a patient, except for certain counties which are allowed to have only one licensed emergency medical technician, registered nurse or physician in attendance. This act amends current law to allow this exception for any ambulance licensed in the state staffed with volunteers. A volunteer is defined as an individual who performs hours of service without promise, expectation or receipt of compensation for services rendered, except for a nominal stipend per call to compensate for fuel, uniforms, and training.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
