FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Secretary of State (SOS)** assume many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact to the SOS office for Administrative Rules for this proposal is less than \$2,500. The SOS recognizes this is a small amount and does not expect additional funding would be required to meet these costs. However, SOS also recognizes that many such bills may be passed in a given year and that collectively the costs may be in excess of what the SOS can sustain with their core budget. Any additional required funding would be handled through the budget process.

Officials from the **Department of Elementary and Secondary Education (DESE)** assume that this proposal currently would allow students from St. Louis City and Wellston to participate in the A+ program provided they meet all other requirements.

The enrollment of 11th grade students for Wellston is 26 and St. Louis City is 1,801. DESE estimates that twenty-five percent of those students would become eligible for A+ reimbursement and of that number only twenty-five percent would take advantage of the program. This assumption would result in a pool of 115 students.

Assuming \$334 as the average cost per credit hour of 25 public community colleges and vocational and technical schools and assuming 12 credit hours in the first year, costs for two semesters would be \$921,840. Costs for the second year would likely double as the number of students would remain the same.

DESE would require an additional FTE accounting specialist.

Oversight notes that, according to information on the DESE web site, Division of School Improvement: A+ Schools, "In most cases, high schools spend three years implementing the program by upgrading curriculum, reducing dropout rates, promoting high student achievement and establishing business advisory councils." **Oversight** will assume, for fiscal note purposes, that the program would not be in place until at least FY 2011. If these schools seek A+ designation and additional personal services are needed for additional students in the program, those resources can be sought through the budget process.

Officials from the **Charleston School District** state this proposal will not affect their school district as they are already part of the A+ program.

ASSUMPTION (continued)

Officials from the **St Louis Public School District** state no funds are used from the General Operating Budget, but this proposal would eliminate the burden from their Development Department from attempting to raise money beyond the 2010 program. No direct fiscal impact is indicated.
