FISCAL ANALYSIS

ASSUMPTION

Officials at the **Office of the Secretary of State (SOS)** assume many joint resolutions are considered by the General Assembly that would require the SOS to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with \$1.6 million historically appropriated in even numbered fiscal years and \$100,000 appropriated in odd numbered fiscal years to meet these requirements. The appropriation has historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2009 in the November election there were 5 statewide Constitutional Amendments or ballot propositions that cost \$1.35 million to publish (an average of \$270,000 per issue). Therefore, the SOS assumes, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. However, because these requirements are mandatory, we reserve the right to request funding to meet the cost of our publishing requirements if the Governor and the General Assembly change the amount or eliminate the estimated nature of our appropriation.

If a special election is called for this purpose rather than being voted on at a general election, the cost of the special election has been estimated to be \$1.2 million based on the cost of the past two such elections.

Officials from the **Department of Agriculture** assume there will be no fiscal impact to their agency.

Officials from the **Department of Conservation** assume this proposal would permit hand fishing for catfish between June 1st and July 31st each year requiring new enforcement, fisheries management, and regulatory costs in an effort to ensure sustainable fish populations.

Oversight assumes that MDC could require a valid license for hand fishing; however, Oversight also assumes that only a minimal number of persons would choose this method of fishing. Therefore, Oversight has not included any fiscal impact to the Conservation Commission Fund.

Officials from the **Department of Natural Resources** assume there will be no fiscal impact to their agency.
