FISCAL ANALYSIS

ASSUMPTION

Officials from the following agencies indicated there would be no fiscal impact to their respective agencies resulting from this proposal: **Office of Administration - Administrative Hearing Commission** and the **Department of Higher Education**.

Officials from the **Department of Elementary and Secondary Education** state this proposal will have no fiscal impact on their agency or on local school districts.

In response to the introduced version of this proposal, officials from the **Office of the Governor** indicated there should be no additional cost to the Governor's Office as a result of this proposed legislation.

According to officials from the **Office of Secretary of State (SOS)**, many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the proposal. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process. Any decisions to raise fees to defray costs would likely be made in subsequent fiscal years.

Officials from the **Francis Howell School District** and the **Special School District of St Louis County** state this proposal will have no fiscal impact on their respective districts.

FISCAL DESCRIPTION

The proposed legislation appears to have no fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
