FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration (COA) - Administrative Hearing Commission** and **Office of the Governor** assume the proposal will have no fiscal impact on their organizations.

Officials from the **Office of Attorney General** assume any potential costs arising from this proposal can be absorbed with existing resources.

Officials from the **Department of Mental Health (DMH)** state the proposal has no fiscal impact to the DMH. The university is currently developing a capital improvements proposal for renovations to the facility with the Governor's Office. The DMH is working on the transition between state operated acute psychiatric beds and the university expanding its psychiatric beds.

The proposal describes the property's legal location and gives the Commission of Administration the responsibility for setting the terms and conditions for the conveyance. The DMH defers to the COA - Division of Facilities Management for review and comment on this proposal.

Officials from the **University of Missouri** state the proposal will have a significant impact on their organization. However, at this time, the fiscal impact is unknown.

Officials from the **COA - Division of Facilities Management** state the matter is still under discussion. As the proposal provides the terms and conditions are to be set by the Commissioner of Administration, the impact of the proposal is unknown at this time.

Oversight assumes whatever consideration set by the Commissioner for the transfer of property to the University of Missouri will have a positive fiscal impact on General Revenue. Since it is unknown when the transfer of property will take place, **Oversight** assumes \$0 or Unknown income for the period of this fiscal note.

Oversight further assumes the University will have increased costs as a result of this proposal, but since these costs are not General Revenue or state money, no impact is being presented.
