FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration - Division of Budget** assume there will be no fiscal impact to their agency.

Officials from the **Department of Natural Resources** assume upon a request from the Director of the Department of Natural Resources, this proposal would authorize the Commissioner of the Office of Administration to provide funds in an amount not to exceed \$500 each to the division directors of State Parks, Geology and Land Survey, or to any other division within the department to be placed in a revolving fund for the purpose of cash transactions involving the sale of items made by the divisions.

Under this proposal, customers entering the central office in Jefferson City to purchase Division of State Parks' state park and historic site souvenirs and gift certificates would have the option of purchasing those items by cash rather than by credit card. Additionally, customers visiting the Jefferson City and Rolla offices of the Department would be able to purchase the Division of Geology and Land Survey's maps, publications, rock sets and other merchandise with cash. Division of State Parks, Division of Geology and Land Survey and the entire Department would be able to handle items sold at special events held throughout the state, including the State Fair, sports shows and conferences of which the Department is requested to be a part. Benefits would be measured by the potential increase in sales or customer traffic.

Officials from the **Office of Administration - Division of Accounting** assume this proposal will create a significant workload, however, their response is no impact. They assume the Division of Information Technology Services response will address the workload needs.
