FISCAL ANALYSIS

ASSUMPTION

Officials from the **Missouri Department of Transportation, Missouri Department of Conservation** and **Missouri Senate** assume the proposal would have no fiscal impact on their agencies.

Officials from the **Department of Public Safety - Missouri State Highway Patrol** defer to the Missouri Department of Transportation for response regarding the potential fiscal impact of this proposal on their organization.

Officials from the **Missouri Consolidated Health Care Plan (MCHCP)** provide the following assumptions:

Early Retiree Reinsurance Program

The MCHCP was approved to receive funds from the Early Retiree Reinsurance Program (ERRP). ERRP provides reimbursement to participating employment-based plans for a portion of the costs of health benefits. To date, the MCHCP has received \$2.9 million. The MCHCP plans to submit requests for additional funds, but the reimbursement amounts are unknown based on the availability of funds. This legislation would require the MCHCP to return funds received through this program. The fiscal impact is unknown but greater than \$2.9 million and contingent on future actions of the federal government.

Coverage for children up to age 26

Prior to the passage of the Patient Protection and Affordable Care Act, the MCHCP only covered children up to age 25 unless they were disabled. As of Jan. 1, 2011, the MCHCP covers 244 25-year-old children. In 2010, the MCHCP's portion of medical and pharmacy claims for this age group was \$2,942 per member per year. The MCHCP would not be required to cover 25-year-olds under this legislation. The fiscal savings would be less than \$717,848 annually because some disabled children would still be eligible for coverage.

Officials from the **Department of Social Services (DSS) - MO HealthNet Division** state the legislation establishes the Health Care Compact of which Missouri would be a Member State. The legislation will not become effective unless it is approved by the United State Congress. It is unknown what the fiscal impact of this legislation would be without the formula described in Attachment A (Section 7(b)) of the proposal.

ASSUMPTION (continued)

Officials from the **DSS - Division of Legal Services** state the legislation will not become effective unless it is approved by the United States Congress. For purposes of this fiscal note, the DLS assumed that it is not reasonably likely that Congress will approve such a compact in time to impact FY 2012.

Officials from the **Department of Insurance, Financial Institutions, and Professional Registration** assume the proposal will have an unknown fiscal impact. The impact of the proposal is contingent on future actions of the compact and the federal government.

Officials from the **Missouri House of Representatives** did not respond to our request for a statement of fiscal impact.

Oversight notes the compact created by of this proposal will not occur until at least two states become Member States of the Compact. Member States are to create the Interstate Advisory Health Care Commission and appoint members. In addition, the compact must receive the consent of the U.S. Congress, but will not be effective unless Congress does not alter the fundamental purpose of the Compact. As a result, **Oversight** assumes any impact related to this proposal will be outside the scope of this fiscal note.

<u>FISCAL IMPACT - State Government</u>	FY 2012 (10 Mo.)	FY 2013	FY 2014
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>

<u>FISCAL IMPACT - Local Government</u>	FY 2012 (10 Mo.)	FY 2013	FY 2014
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

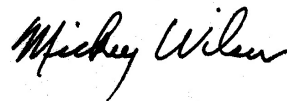

This proposal appears to have no fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
