FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Elementary and Secondary Education** assume this proposal would not change the cost of the school foundation formula. There would be no increased or decreased state cost.

Officials from the **Department of Revenue, Office of State Auditor, and the State Tax Commission** assume this proposal would have no fiscal impact on their respective agencies.

According to officials from the **Office of Secretary of State (SOS)**, many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the proposal. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process. Any decisions to raise fees to defray costs would likely be made in subsequent fiscal years.

Officials from the **Office of Administration - Division of Budget and Planning**, assume there would be no added cost to their agency as a result of this proposed legislation. This proposal would modify the way school district tax levies are calculated in certain counties. This proposal could impact funds for certain school districts, but would not impact general and total state revenues.

Oversight is not able to determine whether this proposal would result in any increase or decrease in a local school district tax rate, and will indicate a fiscal impact from unknown positive to unknown negative.

Officials from **Raytown** and **Kansas City** state there is no fiscal impact to their respective cities.

Officials from **St Louis County** assume no fiscal impact to their county as a result of this proposed legislation.

Officials from the **Parkway School District, Mehlville School District, and Special School District of St Louis County** state there will be no fiscal impact to their district.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

Currently, certain school districts that levy separate tax rates on the different subclasses of property are required to revise tax rates when there is a tax rate reduction after certain tax revenue calculations. This proposed legislation allows the districts to revise the rates. If voters approve separate stated tax rates to be applied to the different subclasses of property or increase the separate rates that may be levied on the different subclasses of property by different amounts, the single tax rate calculation must be a blended rate that is to be calculated in the manner specified in law.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
