FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of the Secretary of State (SOS)** assume many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the Secretary of State's Office for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what our office can sustain with our core budget. Therefore, we reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Officials from the **Office of the State Treasurer** assume this proposal would have no fiscal impact to their organization.

Officials from the **Department of Revenue (DOR)** stated there would be no administrative impact to their organization, but they provided an estimate of the IT impact to implement the proposal of \$15,476 based on 584 hours of programming to make changes to several DOR systems.

Oversight assumes that ITSD-DOR is provided with core funding to handle a certain amount of activity each year, and that ITSD-DOR could absorb the costs related to this proposal. If multiple bills pass which require additional staffing and duties at substantial costs, ITSD-DOR could request funding through the appropriation process.

Officials from the **Office of Administration, Division of Budget and Planning (BAP)** assume this proposal would not result in additional costs or savings to their organization.

BAP officials stated that this proposal would create an income check-off to benefit a fund established in this proposal: the Developmental Disabilities Waiting List Equity Trust Fund. Taxpayers could designate a portion of their refund to the fund, and taxpayers could also write a check for donations to the fund.

ASSUMPTION (continued)

To the extent the check-off is used, this proposal would increase total state revenues. BAP notes that \$324,237 in designations were made via income tax check-off in FY10.

Oversight assumes that the participation rate and the amount of revenue which would be provided for the Developmental Disabilities Waiting List Equity Trust Fund through this proposed check-off program are unknown.

Oversight notes that the Office of Administration, Division of Budget and Planning response indicated a total of \$324,327 in donations for all income tax check-off programs during FY 2010. For fiscal note purposes, Oversight will indicate annual revenue in excess of \$100,000 for the Developmental Disabilities Waiting List Equity Trust Fund. The program would be effective for tax years beginning January 1, 2011, and Oversight assumes the donations would be made from refunds beginning in January, 2012 (FY 2012).

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

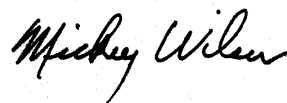

FISCAL DESCRIPTION

The proposed legislation would create a tax refund check-off for the Developmental Disabilities Waiting List Equity Trust Fund.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
