FISCAL ANALYSIS

ASSUMPTION

Officials at the **Office of the Secretary of State and St. Louis County Board of Election Commission** assume that there is no fiscal impact from this proposal.

Officials at the **Platte County Board of Election Commission** assume a savings would be realized by districts calling for an election, as with fewer elections, more district would be placing issues/candidates on the few remaining election dates. Thus the costs for the elections would be shared by more districts. Savings would range from \$50-\$15,000.

Officials at the **Kansas City Board of Election Commission** assume a savings of \$350,000 to \$400,000 per election omitted. Eliminating the February election would save these costs. The June election is seldom held so eliminating it would have no effect.

Oversight assumes that changing the date of the presidential primary election would not affect the cost of the election. Oversight assumes no impact from this provision.

Oversight assume this proposal eliminates the June election date which was only used as a special election on rare occasions. Oversight assumes no impact from this provision.

Oversight assumes this proposal eliminates the February election which may result in some savings to certain entities while others may experience costs from bond elections allowed in February. Oversight assumes that having the February election is permissive and will not reflect an impact from this provision.

<u>FISCAL IMPACT - State Government</u>	FY 2013 (10 Mo.)	FY 2014	FY 2015

<u>FISCAL IMPACT - Local Government</u>	FY 2013 (10 Mo.)	FY 2014	FY 2015

FISCAL IMPACT - Small Business
