## **FISCAL ANALYSIS**

### ASSUMPTION

Officials from the **Department of Health and Senior Services, Missouri Senate, Missouri House of Representatives, Department of Labor and Industrial Relations, Department of Insurance, Financial Institutions and Professional Registration** and the **Missouri Consolidated Health Care Plan** each assume the proposal would not fiscally impact their respective agencies.

Officials from the **Department of Social Services - MO HealthNet Division** state the legislation defines a "Health care system", as any public or private entity whose function or purpose is the management of, processing of, enrollment of individuals for, or payment for, in full or in part, health care services or health care information for its participants. The resolution says this section shall not be construed to affect the terms or conditions of any health care system to the extent that those terms and conditions do not have the effect of punishing a person or employer for paying directly for lawful health care services or a health care provider or hospital for accepting direct payment from a person or employer for lawful health care services. If it is assumed MO HealthNet is considered a health care system then no terms or conditions of MO HealthNet would be affected. Therefore, there is no fiscal impact to the MO HealthNet Division of DSS.

Officials from the **Department of Social Services - Division of Legal Services** assume they will be able to comply with the bill with existing resources.

Officials from the **Department of Social Services - Family Support Division** state they anticipate zero impact if this resolution passes.

Officials from the **Secretary of State's Office** assume each year, a number of bills may be considered by the General Assembly that would refer to a vote of the people the issue in the legislation. Unless a special election is called for the purpose, Referendums are submitted to the people at the next general election. If a special election is called to submit a Referendum to a vote of the people, Section 115.063.2 RSMo. requires the state to pay the costs. Article III section 52(b) of the Missouri Constitution authorizes the general assembly to order a special election for measures referred to the people.

The Secretary of State's office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. The Secretary of State's office is provided

with core funding to handle a certain amount of normal activity resulting from each year's legislative session. Funding for this item is adjusted each year depending upon the election cycle with \$1.3 million historically appropriated in odd numbered fiscal years and \$100,000 appropriated in even numbered fiscal years to meet these requirements. The appropriation has historically been an estimated appropriation because the final cost is dependent upon the number of ballot measures approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2011, at the August and November elections, there were 6 statewide Constitutional Amendments or ballot propositions that cost \$1.02 million to publish (an average of \$170,000 per issue). Therefore, the Secretary of State's office assumes, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. However, because these requirements are mandatory, we reserve the right to request funding to meet the cost of our publishing requirements if the Governor and the General Assembly change the amount or eliminate the estimated nature of our appropriation.

Many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The Secretary of State's office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to Secretary of State's office for Administrative Rules is less than \$2,500. The Secretary of State's office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what our office can sustain with our core budget. Therefore, we reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

**Oversight** has reflected in this fiscal note, the state potentially reimbursing local political subdivisions the cost of having this joint resolution voted on during a special election in fiscal year 2013. This reflects the decision made by the Joint Committee on Legislative Research, that the cost of the elections should be shown in the fiscal note. The next scheduled general election is in November 2012 (FY 2013). It is assumed the subject within this proposal could be on that ballot; however, it could also be on a special election called for by the Governor. Therefore, Oversight will reflect a potential election cost reimbursement to local political subdivisions in FY 2013.

To estimate the expense the state would incur for reimbursing local political subdivisions for a special election, Oversight requested expense estimates from all election authorities for an election. Eighty-six out of the one hundred fifteen election authorities responded to Oversight's

request. From these respondents; the total election expense that would have to be reimbursed by the state government is over \$7 million. Therefore, Oversight will reflect a potential cost borne by the state in FY 2012 of over \$7 million for reimbursement to the local political subdivisions. Oversight assumes the Governor could call for a special election to be held prior to November 2012 regarding this joint resolution; however, if a special election is not called, the subject will be voted on at the general election in November, 2012.

<u>FISCAL IMPACT - State Government</u>	FY 2013 (10 Mo.)	FY 2014	FY 2015

<b>ESTIMATED NET EFFECT TO LOCAL POLITICAL SUBDIVISIONS</b>	<b><u>\$0</u></b>	<b><u>\$0</u></b>	<b><u>\$0</u></b>

### FISCAL IMPACT - Small Business

Possibly. This determination depends in large part upon the result of the legal challenges to the federal Affordable Care Act currently before the U.S. Supreme Court. Should the Court uphold the Affordable Care Act in whole or in part, the economic impact on small businesses in the state, if any, would depend upon how this constitutional amendment is interpreted in relation to any provisions of the Affordable Care Act implemented in the future.

### FISCAL DESCRIPTION

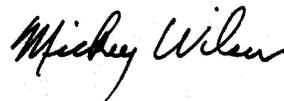

Upon voter approval, this constitutional amendment provides that no law shall compel a patient, employer, or health care provider to participate in any government or privately run health care system, nor prohibit a patient or employer from paying directly for legal health care services.

This amendment does not affect laws or regulations in effect as of January 1, 2010, affect which health care services a health care provider is required to perform, affect which health care services are provided by law, or prohibit care provided under worker's compensation.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
