FISCAL ANALYSIS

ASSUMPTION

Officials at the **Office of Administration - Budget and Planning** assume this proposal extends the sunset on the statutory funding formula for the Division of Tourism Supplemental Revenue Fund from 2015 to 2020. There is no impact to General or Total State Revenue.

Officials at the **Department of Economic Development - Division of Tourism (MDT)** assume this proposal provides for the extension of the sunset clause in Section 620.467, RSMo. The statute will currently sunset on June 30, 2015. This proposal would extend that sunset for five years. Extending this sunset will allow MDT to continue promoting the tourism industry, resulting in additional state tax revenue for Missouri.

Section 620.467, RSMo, incorporates a formula that determines the amount of General Revenue funding to be transferred into the Tourism Supplemental Revenue Fund (TSRF) by monitoring the sales tax growth in 17 tourism-related SIC codes. The formula only provides for additional funding if the tax growth in the 17 tourism-related SIC codes exceeds three percent. One half of the sales tax growth in these SIC codes after it exceeds three percent will be used to determine the amount of increase in the General Revenue transfer to the TSRF. The formula further provides that the growth cannot exceed \$3 million in any one year. This increase is added to the prior year's funding to determine the new level of funding for the TSRF.

The TSRF provides for the funding of the MDT and its marketing efforts. Independent research has shown that the impact of the marketing efforts by MDT has generated \$3.22 in state tax revenue for every dollar in the division's budget. With a \$3.22 return on investment, MDT's FY13 appropriation of \$13 million is expected to generate \$41.86 million in state tax revenues for Missouri. With a funding increase of up to \$3 million per year for each additional year that the funding formula is implemented, the state tax revenue collected by Missouri each year can be expected to increase up to \$9,660,000 over the prior year's collections.

Officials at the **Department of Revenue** and the **Office of State Treasurer** each assume there is no fiscal impact to their organization from this proposal.

Oversight assumes the extension of the existing program in this proposal may have a positive impact on tourism in this state. However, Oversight considers this to be an indirect impact of the proposal and will not reflect it in the fiscal note. Oversight will show the transfer of money from General Revenue to the Division of Tourism Supplemental Revenue Fund using the \$3 million estimate provided by the Division of Tourism.
