FISCAL ANALYSIS

ASSUMPTION

Officials from the **Joint Committee on Public Retirement** state that this legislation would not create a substantial proposed change in future plan benefits as defined in Section 105.660(10).

In response to a similar version of this proposal, officials from the **St. Louis Police Retirement System** assumed the proposal reduces non-duty disability vesting requirement from 10 years to 5 years and modifies disability determinations from the Retirement System Board of Trustees and Medical Director to the Board of Police Commissioners or successor body and a Medical Board. The provisions included in this proposal affecting St. Louis Police Retirement System would result in an increase to the employer contribution of approximately \$28,941 (.04%) annually.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

Currently, any member of the Police Retirement System of St. Louis who has completed at least 10 years of creditable service and has become permanently unable to perform the duties of a police officer as the result of an injury or illness not exclusively caused or induced by the performance of his or her official duties or by his or her own negligence will be retired by the Board of Police Commissioners. This proposal lowers the creditable service requirement to five years, once the system's funded actuarial ration reaches eighty percent (80%).

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
