FISCAL ANALYSIS

ASSUMPTION

§ 414.062 - Diesel Fuel Pumps:

Officials from the **Department of Agriculture (AGR)** assume nozzle color inspections will be during routine station inspections resulting in no additional cost to AGR.

Oversight assumes this proposal will have no direct fiscal impact on state or local government funds.

<u>FISCAL IMPACT - State Government</u>	FY 2014 (10 Mo.)	FY 2015	FY 2016
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>

<u>FISCAL IMPACT - Local Government</u>	FY 2014 (10 Mo.)	FY 2015	FY 2016
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>

FISCAL IMPACT - Small Business

§ 414.062 - Diesel Fuel Pumps:

AGR assumes this proposal requires all diesel fuel dispenser nozzles to be green in color.

AGR notes the state of Missouri has approximately 1500 diesel nozzles at truck stops and diesel delivery trucks without a green diesel nozzle. AGR states the costs of green diesel fuel pump covers averages \$10 each. $1,500 * \$10 = \$15,000$

AGR assumes an estimated cost to small business retailers and wholesale diesel distributors of \$15,000 to convert all nozzles to green nozzles.

AGR states most diesel covers are green with exception on one major oil company that has black covers on diesel and green on gasoline nozzles. Green covers can be removed from the gasoline and placed on the diesel nozzles

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact on state or local government funds.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
