## FISCAL ANALYSIS

### ASSUMPTION

Officials at the **Lincoln University**, the **Linn State Technical College**, the **Missouri Southern State University**, the **Missouri State University**, the **Office of State Courts Administrator**, the **University of Central Missouri** and the **University of Missouri** each assume there is no fiscal impact to their respective organizations from this proposal.

In response to the previous version of this proposal, officials at **Lawrence County**, **Lincoln County**, the **Missouri Western State University** and the **Office of the Secretary of State** each assumed there was no fiscal impact to their respective organizations from this proposal.

Officials at the **Office of Attorney General (AGO)** assumed this proposal requires the AGO to accept complaints regarding the privacy of certain library records, requires the AGO to review such complaints, and provides that the AGO may initiate legal action. The AGO is unable to estimate the number or nature of such complaints that it would receive, and therefore the costs are unknown.

**Oversight** assumes the Office of Attorney General can absorb the cost of this proposal with existing resources. Should they see an increase in the number of complaints as a direct result of this proposal they could seek additional resources through the appropriation process.

Officials at the **Northwest Missouri State University** assume no impact from the expansion of this legislation to include digital resources. However, a financial impact would be attorney fees and damages if a suit is filed against the library or institution in response to a violation.

In response to the previous version of this proposal, officials at **St. Louis County** assumed possible legal fees if a case is brought against their organization. Their digital resources are subscribed third party services. While they know of no practice of sharing content access per a given user by these third parties, the library trusts in these organizations to assure that their systems are secure and their code of privacy is followed.

In response to the previous version of this proposal, officials at the **Jefferson College** assumed the interpretation of "civil action" is vague and may cause the library to be liable even if third parties involved are at fault. This could have an unknown impact on the library.

ASSUMPTION (continued)

**Oversight** assumes the libraries will work to ensure that its vendors are following this proposal or find other vendors. Therefore, lawsuits from a lack of compliance with this proposal will be unwarranted. Oversight assumes no fiscal impact to libraries as a result of this proposal.

Officials at the following counties: Andrew, Audrain, Barry, Bates, Boone, Buchanan, Callaway, Camden, Cape Girardeau, Carroll, Cass, Clay, Cole, Cooper, DeKalb, Franklin, Greene, Holt, Jackson, Jefferson, Johnson, Knox, Laclede, Marion, Miller, Moniteau, Monroe, Montgomery, New Madrid, Nodaway, Ozark, Perry, Pettis, Phelps, Platte, Pulaski, Scott, St. Charles, St. Francois, Taney, Warren, Wayne and Worth did not respond to **Oversight's** request for fiscal impact.

Officials at the following colleges: Crowder, East Central Community College, Harris-Stowe, Kansas City Metro Community College, Moberly Area Community College, Southeast Missouri State University, State Fair Community College, St. Charles Community College, St. Louis Community College, Three Rivers Community College and the Truman State University did not respond to **Oversight's** request for fiscal impact.
