FISCAL ANALYSIS

ASSUMPTION

Officials from the **Attorney General's Office (AGO)** assume this proposal gives the department new authority to pursue commercial (as opposed to residential) roofers for certain violations. The AGO assumes this would result in an increased caseload necessitating at least an additional 1/2 FTE. The AGO would seek additional appropriations as needed to enforce the proposal.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** assume this proposal will have no fiscal impact on their department. If the adoption of the proposal results in an increase in consumer inquiries, the department believes it could absorb the workload within existing appropriations. However, should the extent of the work be more than anticipated, the department would request additional appropriation and/or FTE through the budget process.

FISCAL IMPACT - Small Business

This proposal would allow small businesses with commercial property to have protections against predatory business practices by contractors.

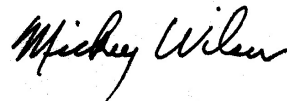

FISCAL DESCRIPTION

Currently, consumer protections against predatory business practices by building contractors are only afforded to owners of residential property. This proposal expands those consumer protections to owners of commercial properties.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
