The proposal may impact small business abortion providers as they will have to have an on-site inspection performed annually.

This proposal may impact small business healthcare providers serving underserved populations. The impact is unknown as it depends where on the priority list for distribution of funds the provider will be compared to where they were prior to the implementation of the priority list outlined in this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
